Environmental Review for Activity/Project that is Categorically Excluded Subject to Section 58.5

Pursuant to 24 CFR 58.35(a)

Project Information

Project Name: Erie Metropolitan Housing Authority Capital Fund Improvements (Scattered General)

Responsible Entity: Erie County, Ohio Board of County Commissioners

Grant Recipient (if different than Responsible Entity): Erie Metropolitan Housing Authority

State/Local Identifier: OH 028

Preparer: Cindy Brookes

Certifying Officer Name and Title: Patrick Shenigo, County Commissioner

Grant Recipient (if different than Responsible Entity): Erie MHA

Consultant (if applicable): Wind, Water & Energy Conservation

Direct Comments to: ClevelandPublicHousing@hud.gov

Project Location: Scattered Sites which include the following addresses:

1109 Wamajo Dr.	1113 Wamajo Dr.	2201 Olds St.
2220 Olds St.	2229 Olds St.	2235 Olds St.
2601 Harbor Blvd.	2603 Harbor Blvd.	2602 Harbor Blvd.
2604 Harbor Blvd.	2605 Harbor Blvd.	2607 Harbor Blvd.
2606 Harbor Blvd.	2608 Harbor Blvd.	2609 Harbor Blvd.
2611 Harbor Blvd.	2610 Harbor Blvd.	2612 Harbor Blvd.

Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]**:**

The work outlined in the five-year action plan by the Erie Metropolitan Housing Authority for their U. S. Department of Housing and Urban Development Capital Fund Program Action Plan indicated work at many scattered sites which include 70 housing sites across the City of Sandusky, Ohio that have been identified as not within other review required components and listed as general. The outlined work is to rehabilitate public housing. Additional energy efficiency work through Phase II of the Energy Performance Contract (EPC) has been identified to be completed at theses 70 scattered sites also and included in this report.

The 70 scatter sites include single family detached or semi detach, row or townhouse, 1 multifamily apartment, or non-dwelling structure locations scattered across the City of Sandusky but not within the floodplain, coastal zone management area and not on Ohio History Connection mapping as a historically designated property. Street locations are listed in the project location and shown on the maps provided.

The following addresses have been selected to receive Window Replacements: 1612 Camp St., 1019 Fourth St., 502 E Washington St., 504 E Washington St., 506 E Washington St., 508 E Washington St., 2220 Olds St., 2229 Olds St., 2235 Olds St., 610 Shelby St., 908 Hancock St., 414 McKelvey St., 1801 Camp St. A, 1801 Camp St. B, 622 Perry St., 405 Camp St., 1227 W Madison St. A, 1227 W Madison St. B, 623 Taylor St., 407 Reese St., 411 Neil St., 917 Hayes St., 2201 Olds St., and 412 E Adams St.

Furance replacement has been identified for the following addresses: 1612 Camp St., 1019 Fourth St., 1317 Huntington Ave., 502 E Washington St., 504 E Washington St., 506 E Washington St., 508 E Washington St., 526 E Washington St., 908 Hancock St., 1435 Judy Ln., 1617 N Larchmont Dr., 1030 Pearl St., 610 Shelby St., 1222 Ashburn St., 414 McKelvey St., 1801 Camp St. A, 1801 Camp St. B, 1612 Central Ave., 411 Neil St., 514 Dewey St. A, 514 E Washington St., 407 Reese St., 408 E Washington St., 132 Homestead Ave.. 628 Taylor St., 917 Hayes Ave., 1323 Stone St., 1509 W Monroe St., 905 Hayes Ave., and 623 Taylor St.

All addresses will be included in the Energy Performance Contract energy efficiency items have been since identified to be installed at the scattered sites and include lighting retrofit, aerator upgrade, and shower head upgrade.

Level of Environmental Review Determination:

Categorically Excluded per 24 CFR 58.35(a), and subject to laws and authorities at §58.5:_____

Funding Information

Grant Number	HUD Program	Funding Amount
OH-12P028501-18	Capital Fund Program	$411,423.00
OH-12P028501-19	Capital Fund Program	$430,080.00
N/A	Energy Performance Contracting	$1,413,602.00

Estimated Total HUD Funded Amount: $2,254,915.00

Estimated Total Project Cost (HUD and non-HUD funds) [24 CFR 58.32(d)]**: $2,254,915.00**

Compliance with 24 CFR 50.4, 58.5, and 58.6 Laws and Authorities

Record below the compliance or conformance determinations for each statute, executive order, or regulation. Provide credible, traceable, and supportive source documentation for each authority. Where applicable, complete the necessary reviews or consultations and obtain or note applicable permits of approvals. Clearly note citations, dates/names/titles of contacts, and page references. Attach additional documentation as appropriate.

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §58.5 and §58.6	Are formal compliance steps or mitigation required?	Compliance determinations
STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR 50.4 & 58.6		
Airport Hazards 24 CFR Part 51 Subpart D	Yes ☐ No ☒	The project area is not located within 13,000 feet (direct) of the end of a Class I or commercial airport, or within 8,000 feet (direct) of the end of a Class II or Class III airport and not located within the clear zone or accident potential zones of any airport.

Coastal Barrier Resources Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]	Yes ☐ No ☒	Based on review of the Coastal Barriers Resources Map, attached to this report, indicates the properties included in this project do not fall within any of the 3 identified in Erie County.
Flood Insurance Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001-4128 and 42 USC 5154a]	Yes ☐ No ☒	The properties on this report are all located outside of the 100-year floodplain therefore, do not require flood insurance to be purchased. See attached floodplain map.
STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR 50.4 & 58.5		
Clean Air Clean Air Act, as amended, particularly section 176(c) & (d); 40 CFR Parts 6, 51, 93	Yes ☐ No ☒	The State and Area of this project are within attainment for air quality and all proposed work should not exceed any of the de minis or threshold emission levels.
Coastal Zone Management Coastal Zone Management Act, sections 307(c) & (d)	Yes ☐ No ☒	Upon review of the Coastal Management Zone Act requirements, the Ohio Department of Natural Resources Office of Coastal Management, provided concurrence that Federal Consistency will be met for the work being completed at this site since it will be carried out meeting all Coastal Management Zone requirements, thus having no impact on the use or resource of the designated coastal area. No further coordination is needed with the Ohio Department of Natural Resources, Office of Coastal Management.
Contamination and Toxic Substances 24 CFR Part 50.3(i) & 58.5(i)(2)	Yes ☒ No ☐	After reviewing records of EMHA Lead Survey's completed in February and October 1993 and since no updated surveys have been completed within the last year a Lead Risk Assessment must be completed prior bidding at the eight properties listed below. Based on the above information, the window replacements proposed by the Erie

		Metropolitan Housing Authority and listed in the project description dated 9.11.2020 for the properties of 1019 Fourth Street, 405 Camp Street, 1612 Camp Street, 412 East Adams Street, 414 McKelvey Street, 407 Reese Street, 908 Hancock Street and 411 Neil Street which all indicated previous presence of lead paint on the window pane, sill, casing, trim and/or sash. Therefore these window replacements must follow the HUD Renovation, Repair and Paint Rule and any Ohio Department of Health Notifications required based on findings. All other properties were indicated as lead free or built after 1980. No other information was provided or found to be in, near or around the area of the addresses of these scattered sites.
Endangered Species Endangered Species Act of 1973, particularly section 7; 50 CFR Part 402	Yes ☐ No ☒	**Natural Heritage Database**: The Natural Heritage Database has the following records at or within a one-mile radius of the project area. Cattle egret (*Bubulcus ibis*), State endangered Black-crowned night—heron (*Nycticorax nycticorax*), State threatened Common tern (*Sterna hirundo*), State endangered Pipe Creek Wildlife Area – ODNR Division of Wildlife The review was performed on the project area you specified in your request as well as an additional one-mile radius. Records searched date from 1980. This information is provided to inform you of features present within your project area and vicinity. Please note that Ohio has not been completely surveyed and we rely on receiving information from many sources. Therefore, a lack of records for any particular area is not a statement that rare species or unique features are absent from that area. Although all types of plant communities have been surveyed, we only maintain records on the highest quality areas.

		Fish and Wildlife: The Division of Wildlife (DOW) has the following comments. The DOW recommends that impacts to streams, wetlands and other water resources be avoided and minimized to the fullest extent possible, and that best management practices be utilized to minimize erosion and sedimentation. The project is within the range of the Indiana bat (*Myotis sodalis*), a state endangered and federally endangered species. The following species of trees have relatively high value as potential Indiana bat roost trees to include: shagbark hickory (*Carya ovata*), shellbark hickory (*Carya laciniosa*), bitternut hickory (*Carya cordiformis*), black ash (*Fraxinus nigra*), green ash (*Fraxinus pennsylvanica*), white ash (*Fraxinus americana*), shingle oak (*Quercus imbricaria*), northern red oak (*Quercus rubra*), slippery elm (*Ulmus rubra*), American elm (*Ulmus americana*), eastern cottonwood (*Populus deltoides*), silver maple (*Acer saccharinum*), sassafras (*Sassafras albidum*), post oak (*Quercus stellata*), and white oak (*Quercus alba*). Indiana bat roost trees consists of trees that include dead and dying trees with exfoliating bark, crevices, or cavities in upland areas or riparian corridors and living trees with exfoliating bark, cavities, or hollow areas formed from broken branches or tops. However, Indiana bats are also dependent on the forest structure surrounding roost trees. If suitable habitat occurs within the project area, the DOW recommends trees be conserved. If suitable habitat occurs within the project area and trees must be cut, the DOW recommends cutting occur between October 1 and March 31. If suitable trees must be cut during the summer months, the DOW recommends a net survey be conducted between June 1 and August 15, prior to any cutting. Net surveys should incorporate either nine net nights per square 0.5 kilometer of project area, or four net nights per kilometer for linear projects. If no

		tree removal is proposed, this project is not likely to impact this species. The project is within the range of the eastern pondmussel *(Ligumia nasuta*), a state endangered mussel, the black sandshell (*Ligumia recta*), a state threatened mussel, the threehorn wartyback (*Obliquaria reflexa*), a state threatened mussel, and the fawnsfoot (*Truncilla donaciformis*), a state threatened mussel. Due to the location, and that there is no in-water work proposed in a perennial stream, this project is not likely to impact these species. The project is within the range the brook trout (*Salvelinus fontinalis*), a state endangered fish, and the channel darter (*Percina copelandi*), a state threatened fish. Due to the location, and that there is no in-water work proposed in a perennial stream, this project is not likely to impact these species. The project is within the range of the eastern massasauga (*Sistrurus catenatus*), a state endangered and federally threatened snake species. The eastern massasauga uses a range of habitats including wet prairies, fens, and other wetlands, as well as drier upland habitat. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the Kirtland's snake (*Clonophis kirtlandii*), a state threatened species. This secretive species prefers wet fields and meadows. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the smooth greensnake (*Opheodrys vernalis*), a state endangered species. This species is primarily a prairie inhabitant, but also found in marshy meadows and roadside ditches. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the Blanding's Turtle (*Emydoidea blandingii*), a

		state threatened species. This species inhabits marshes, ponds, lakes, streams, wet meadows, and swampy forests. Although essentially aquatic, the Blanding's turtle will travel over land as it moves from one wetland to the next. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the American bittern (*Botaurus lentiginosus*), a state endangered bird. Nesting bitterns prefer large undisturbed wetlands that have scattered small pools amongst dense vegetation. They occasionally occupy bogs, large wet meadows, and dense shrubby swamps. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the common tern (*Sterna hirundo*), a state endangered bird. The preferred nesting sites of common terns are natural or man-made islands that are free of mammalian predators and human disturbance. They will also utilize mainland beaches and dredge disposal areas but only when islands are unavailable. The common tern nests in colonies. Their eggs are laid in a grass-lined depression in the sand. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the king rail (*Rallus elegans*), a state endangered bird. Nests for this species are deep bowls constructed out of grass and usually hidden very well in marsh vegetation. Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the Upland Sandpiper (*Bartramia longicauda*), a state endangered bird. Nesting upland sandpipers utilize dry grasslands including native grasslands, seeded grasslands, grazed and ungrazed pasture, hayfields, and grasslands established through the Conservation

		Reserve Program (CRP). Due to the location, and the type of work proposed, this project is not likely to impact this species. The project is within the range of the piping plover (*Charadrius melodus*), a state and federally endangered bird species, and the Kirtland's warbler (*Setophaga kirtlandii*), a state endangered bird. These species do not nest in the state but only utilize stopover habitat as they migrate through the region. Therefore, this project is not likely to have an impact on these species. Due to the potential of impacts to federally listed species, as well as to state listed species, we recommend that this project be coordinated with the U.S. Fish & Wildlife Service. Unless work requires tree removal, no mitigation is required.
Explosive and Flammable Hazards 24 CFR Part 51 Subpart C	Yes ☐ No ☒	The proposed project involves rehabilitation of existing public housing units. An increase in residential densities will not occur; no new units will be constructed. No further coordination is required with respect to 24 CFR Part 51 Subpart C- "Siting of HUD-Assisted Projects Near Hazardous Operations Handling Conventional Fuels or Chemicals of an Explosive or Flammable Nature". For purposes of this subpart the terms "rehabilitation" and "modernization" refer only to such repairs and renovation of a building or buildings as will result in an increased number of people being exposed to hazardous operations by increasing residential densities, converting the type of use of a building to habitation, or making a vacant building habitable. The proposed building improvements do not apply.
Farmlands Protection Farmland Protection Policy Act of 1981, particularly sections 1504(b) and 1541; 7 CFR Part 658	Yes ☐ No ☒	All building improvements will take place within the City of Sandusky, which is already committed to urban development; therefore no prime or important farmland will be impacted by the project.

Floodplain Management Executive Order 11988, particularly section 2(a); 24 CFR Part 55	Yes ☐ No ☒	Since none of these properties fall within the 1% chance of Flood Hazard, there is no required permits or insurance requirements.
Historic Preservation National Historic Preservation Act of 1966, particularly sections 106 and 110; 36 CFR Part 800	Yes ☐ No ☒	After corresponding with the State Historic Preservation office regarding the proposed work they responded, "A check of our records indicates that this property has not been previously surveyed to determine its eligibility for listing in the National Register of Historic Places (NRHP). Based on the information submitted, it is the opinion of SHPO that the proposed interior work should not impact the significance or integrity of the property in a way that would alter its National Registry eligibility. Therefore, we agree that the proposed construction work will have no effect on historic properties. No further coordination with this office is necessary, unless the project changes." The City of Sandusky has Historical District's identified and were notified with the following response received regarding their interest in the project. "…the addresses listed on the Section 106 project summary form and none of the properties are designated as historic structures, nor are any located in a designated historical district. They do not require any approvals from our Landmark Commission."
Noise Abatement and Control Noise Control Act of 1972, as amended by the Quiet Communities Act of 1978; 24 CFR Part 51 Subpart B	Yes ☐ No ☒	Window replacements will utilize double pane windows which will help to reduce ambient outside noise while the remaining proposed projects being completed at the various scattered addresses are interior in nature for energy efficiency purposes only, therefore will have no impact on noise.
Sole Source Aquifers Safe Drinking Water Act of 1974, as amended, particularly section 1424(e); 40 CFR Part 149	Yes ☐ No ☒	There are no documented Sole Source Aquifers within the area of this project as noted on the map attached. Therefore there is no mitigation required
Wetlands Protection	Yes ☐ No ☒	Based on correspondence with the US Army Corps of Engineers, the following response

Executive Order 11990, particularly sections 2 and 5		was received and has been attached to the full report. The information contained in your submittal indicates that the proposed work will not involve a discharge of dredged or fill material into any waters of the U.S. or work in any navigable water of the U.S. Therefore, I have determined that we have no jurisdiction over the proposal and no Section 10 RHA or Section 404 CWA permit is required. Should you modify your proposal to entail a discharge of dredged or fill material into a waters of the United States you must contact our office regarding Department of Army permit requirements. Although a permit is not required, we request that proper measures be taken to prevent unintentional discharges from entering the waterway. You are encouraged to contact the appropriate state and local government officials to insure that the proposed work complies with their requirements.
Wild and Scenic Rivers Wild and Scenic Rivers Act of 1968, particularly section 7(b) and (c)	Yes ☐ No ☒	There are no federal or state-designated wild or scenic rivers located at the project site. The project will not impact wild and scenic rivers.
ENVIRONMENTAL JUSTICE		
Environmental Justice Executive Order 12898	Yes ☐ No ☒	The USEPA defines environmental justice as follows: "Fair treatment means no group of people, including racial, ethnic, or socioeconomic groups, should bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, or commercial

Field Inspection (Date and completed by)**:** Cindy Brookes, Sr. Rural Development Specialist and Nadine Thompson, Program Assistance visited on August 24, 2020.

Summary of Findings and Conclusions: Since a Lead Risk Assessment has not been completed on the eight properties of: 1019 Fourth Street, 405 Camp Street, 1612 Camp Street,

412 East Adams Street, 414 McKelvey Street, 407 Reese Street, 908 Hancock Street and 411 Neil Street which had been indicated window components containing lead with no further reports indicating lead free status, these properties must complete a Lead Risk Assessment and follow the HUD Renovation, Repair and Paint Rule and any Ohio Department of Health Notifications required based on findings.

Otherwise no other findings or mitigation were found.

Mitigation Measures and Conditions [40 CFR 1505.2(c)]

Summarize below all mitigation measures adopted by the Responsible Entity to reduce, avoid, or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements, and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure
HUD Renovation, Repair and Paint Rule	*Complete a Lead Risk Assessment and based on findings follow the necessary HUD Renovation, Repair and Paint Rule procedures.*

Determination:

☐ This categorically excluded activity/project converts to Exempt, per 58.34(a)(12) because there are no circumstances which require compliance with any of the federal laws and authorities cited at §58.5. **Funds may be committed and drawn down after certification of this part** for this (now) EXEMPT project; OR

☒ This categorically excluded activity/project cannot convert to Exempt because there are circumstances which require compliance with one or more federal laws and authorities cited at §58.5. Complete consultation/mitigation protocol requirements, **publish NOI/RROF and obtain "Authority to Use Grant Funds"** (HUD 7015.16) per Section 58.70 and 58.71 before committing or drawing down any funds; OR

☐ This project is now subject to a full Environmental Assessment according to Part 58 Subpart E due to extraordinary circumstances (Section 58.35(c)).

Preparer Signature: Cindy Brookes Date: 10/28/2020

Projects located in the following states must complete this form.

Alabama	Georgia	Massachusetts	New Jersey	Puerto Rico	Virgin Islands
Connecticut	Louisiana	Michigan	New York	Rhode Island	Virginia
Delaware	Maine	Minnesota	North Carolina	South Carolina	Wisconsin
Florida	Maryland	Mississippi	Ohio	Texas	

1. Is the project located in a CBRS Unit?

☒No → *If the RE/HUD agrees with this recommendation, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide a map showing that the site is not within a CBRS Unit.*

☐Yes → *Continue to 2.*

> Federal assistance for most activities may not be used at this location. You must either choose an alternate site or cancel the project. In very rare cases, federal monies can be spent within CBRS units for certain exempted activities (e.g., a nature trail), after consultation with the Fish and Wildlife Service (FWS) (see 16 USC 3505 for exceptions to limitations on expenditures).

2. Indicate your recommended course of action for the RE/HUD

☐ Consultation with the FWS

☐ Cancel the project

Worksheet Summary

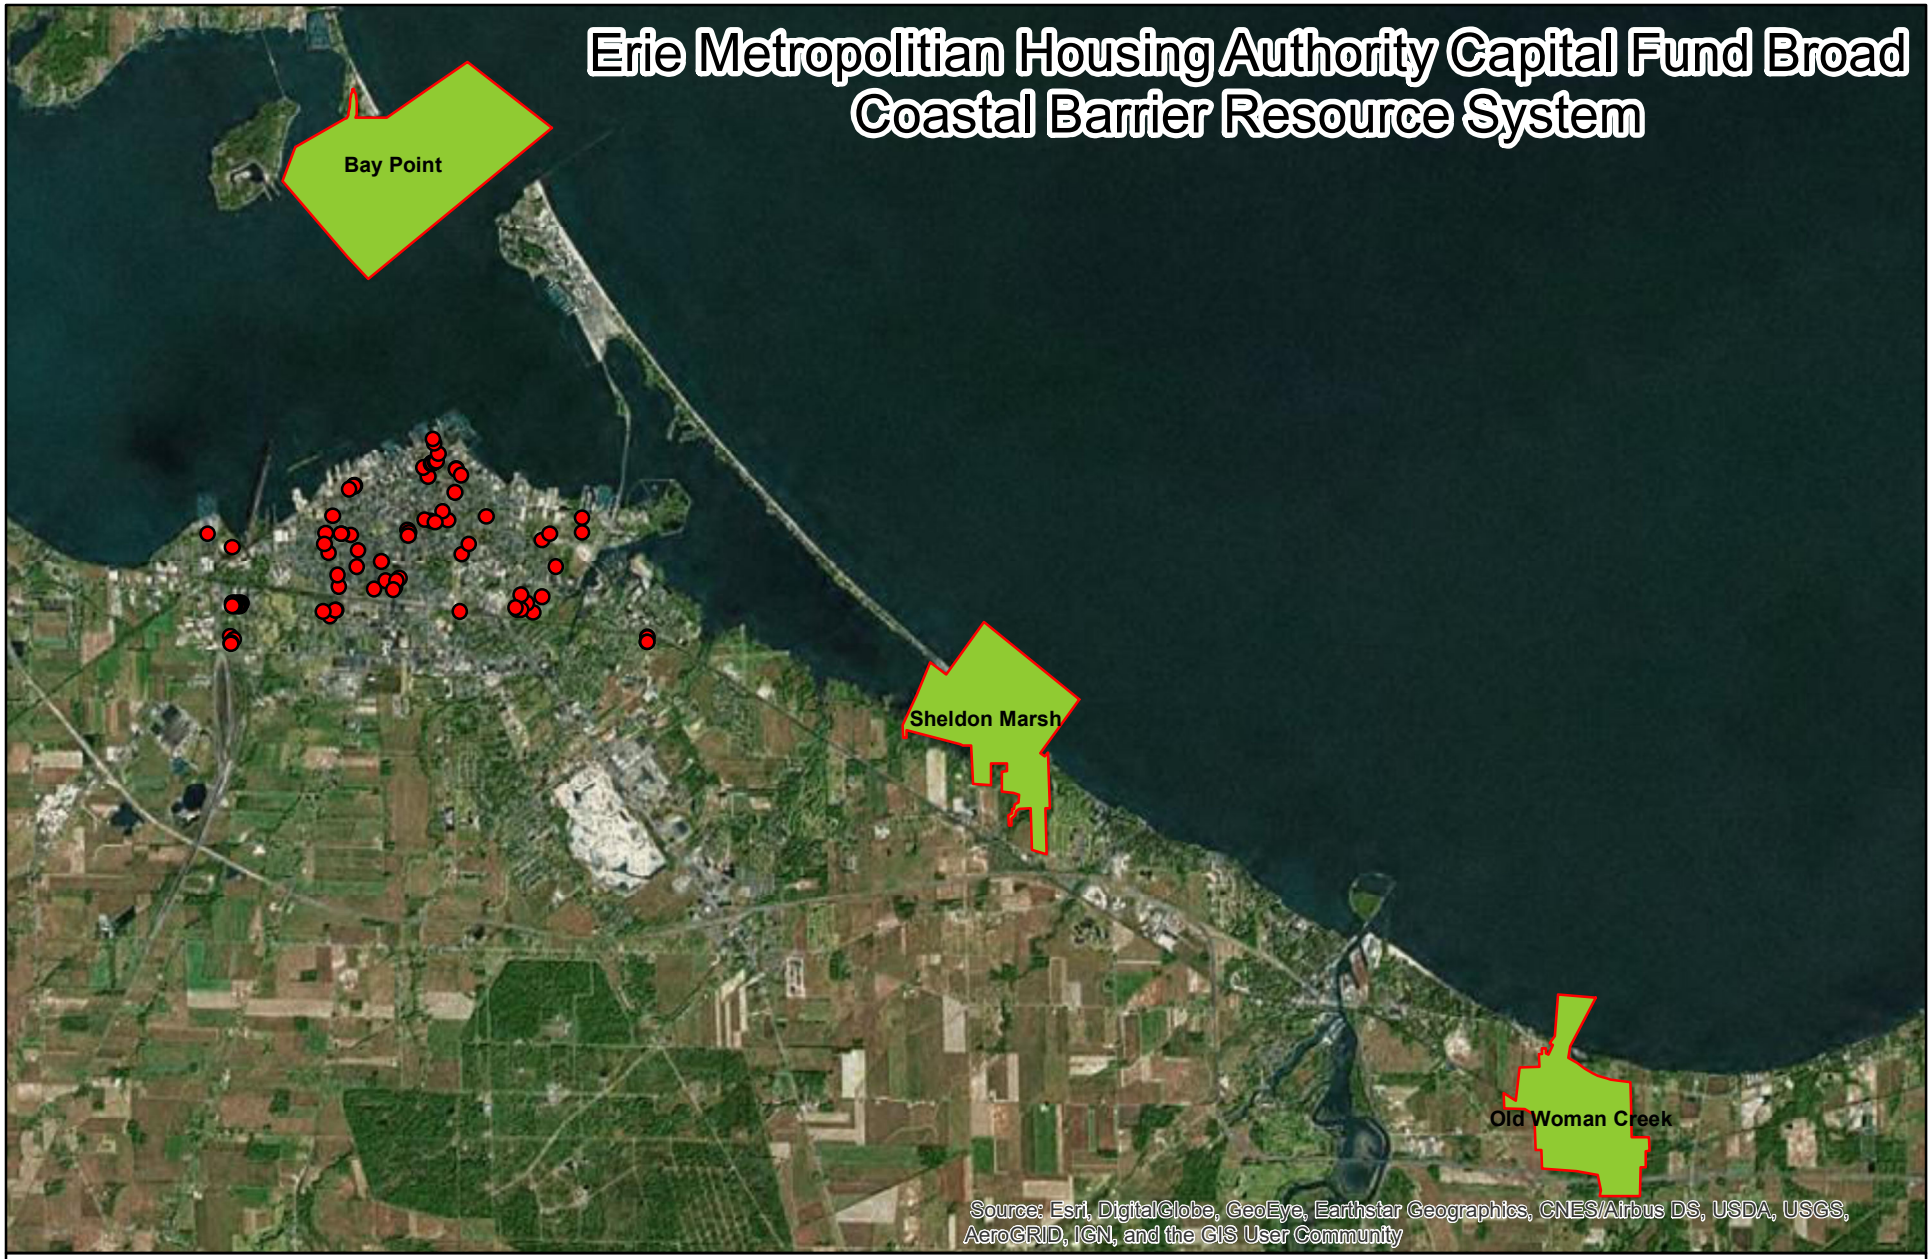

Provide a full description of your determination and a synopsis of the information that it was based on, such as:

- Map panel numbers and dates Ohio Coastal Barrier Resource Map is attached
- Names of all consulted parties and relevant consultation dates – contacted Ohio Department of Natural Resources with response letter attached.
- Names of plans or reports and relevant page numbers
- Any additional requirements specific to your program or region

Include all documentation supporting your findings in your submission to HUD.

Re: 19-984; Erie Metropolitan Housing Authority Capital Fund Improvement Broad-Level Tier Review

Project: The proposed project involves the rehabilitation of public housing.

Location: The proposed project is located in the City of Sandusky, Erie County, Ohio.

The Ohio Department of Natural Resources (ODNR) has completed a review of the above referenced project. These comments were generated by an inter-disciplinary review within the Department. These comments have been prepared under the authority of the Fish and Wildlife Coordination Act (48 Stat. 401, as amended; 16 U.S.C. 661 et seq.), the National Environmental Policy Act, the Coastal Zone Management Act, Ohio Revised Code and other applicable laws and regulations. These comments are also based on ODNR's experience as the state natural resource management agency and do not supersede or replace the regulatory authority of any local, state or federal agency nor relieve the applicant of the obligation to comply with any local, state or federal laws or regulations.

Natural Heritage Database: The Natural Heritage Database has the following records at or within a one-mile radius of the project area.

Cattle egret (*Bubulcus ibis*), State endangered
Black-crowned night—heron (*Nycticorax nycticorax*), State threatened
Common tern (*Sterna hirundo*), State endangered
Pipe Creek Wildlife Area – ODNR Division of Wildlife

The review was performed on the project area you specified in your request as well as an additional one-mile radius. Records searched date from 1980. This information is provided to inform you of features present within your project area and vicinity.

Please note that Ohio has not been completely surveyed and we rely on receiving information from many sources. Therefore, a lack of records for any particular area is not a statement that rare species or unique features are absent from that area. Although all types of plant communities have been surveyed, we only maintain records on the highest quality areas.

Fish and Wildlife: The Division of Wildlife (DOW) has the following comments.

The DOW recommends that impacts to streams, wetlands and other water resources be avoided and minimized to the fullest extent possible, and that best management practices be utilized to minimize erosion and sedimentation.

The project is within the range of the Indiana bat (*Myotis sodalis*), a state endangered and federally endangered species. The following species of trees have relatively high value as potential Indiana bat roost trees to include: shagbark hickory (*Carya ovata*), shellbark hickory (*Carya laciniosa*), bitternut hickory (*Carya cordiformis*), black ash (*Fraxinus nigra*), green ash (*Fraxinus pennsylvanica*), white ash (*Fraxinus americana*), shingle oak (*Quercus imbricaria*), northern red oak (*Quercus rubra*), slippery elm (*Ulmus rubra*), American elm (*Ulmus americana*), eastern cottonwood (*Populus deltoides*), silver maple (*Acer saccharinum*), sassafras (*Sassafras albidum*), post oak (*Quercus stellata*), and white oak (*Quercus alba*). Indiana bat roost trees consists of trees that include dead and dying trees with exfoliating bark, crevices, or cavities in upland areas or riparian corridors and living trees with exfoliating bark, cavities, or hollow areas formed from broken branches or tops. However, Indiana bats are also dependent on the forest structure surrounding roost trees. If suitable habitat occurs within the project area, the DOW recommends trees be conserved. If suitable habitat occurs within the project area and trees must be cut, the DOW recommends cutting occur between October 1 and March 31. If suitable trees must be cut during the summer months, the DOW recommends a net survey be conducted between June 1 and August 15, prior to any cutting. Net surveys should incorporate either nine net nights per square 0.5 kilometer of project area, or four net nights per kilometer for linear projects. If no tree removal is proposed, this project is not likely to impact this species.

The project is within the range of the eastern pondmussel *(Ligumia nasuta*), a state endangered mussel, the black sandshell (*Ligumia recta*), a state threatened mussel, the threehorn wartyback (*Obliquaria reflexa*), a state threatened mussel, and the fawnsfoot (*Truncilla donaciformis*), a state threatened mussel. Due to the location, and that there is no in-water work proposed in a perennial stream, this project is not likely to impact these species.

The project is within the range the brook trout (*Salvelinus fontinalis*), a state endangered fish, and the channel darter (*Percina copelandi*), a state threatened fish. Due to the location, and that there is no in-water work proposed in a perennial stream, this project is not likely to impact these species.

The project is within the range of the eastern massasauga (*Sistrurus catenatus*), a state endangered and federally threatened snake species. The eastern massasauga uses a range of habitats including wet prairies, fens, and other wetlands, as well as drier upland habitat. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the Kirtland's snake (*Clonophis kirtlandii*), a state threatened species. This secretive species prefers wet fields and meadows. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the smooth greensnake (*Opheodrys vernalis*), a state endangered species. This species is primarily a prairie inhabitant, but also found in marshy meadows and roadside ditches. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the Blanding's Turtle (*Emydoidea blandingii*), a state threatened species. This species inhabits marshes, ponds, lakes, streams, wet meadows, and swampy

forests. Although essentially aquatic, the Blanding's turtle will travel over land as it moves from one wetland to the next. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the American bittern (*Botaurus lentiginosus*), a state endangered bird. Nesting bitterns prefer large undisturbed wetlands that have scattered small pools amongst dense vegetation. They occasionally occupy bogs, large wet meadows, and dense shrubby swamps. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the common tern (*Sterna hirundo*), a state endangered bird. The preferred nesting sites of common terns are natural or man-made islands that are free of mammalian predators and human disturbance. They will also utilize mainland beaches and dredge disposal areas but only when islands are unavailable. The common tern nests in colonies. Their eggs are laid in a grass-lined depression in the sand. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the king rail (*Rallus elegans*), a state endangered bird. Nests for this species are deep bowls constructed out of grass and usually hidden very well in marsh vegetation. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the Upland Sandpiper (*Bartramia longicauda*), a state endangered bird. Nesting upland sandpipers utilize dry grasslands including native grasslands, seeded grasslands, grazed and ungrazed pasture, hayfields, and grasslands established through the Conservation Reserve Program (CRP). Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the piping plover (*Charadrius melodus*), a state and federally endangered bird species, and the Kirtland's warbler (*Setophaga kirtlandii*), a state endangered bird. These species do not nest in the state but only utilize stopover habitat as they migrate through the region. Therefore, this project is not likely to have an impact on these species.

Due to the potential of impacts to federally listed species, as well as to state listed species, we recommend that this project be coordinated with the U.S. Fish & Wildlife Service.

Coastal Management: The Office of Coastal Management has the following comment.

The Office of Coastal Management comments that pursuant to the Coastal Zone Management Act of 1972, as amended, and its corresponding federal regulations, all Federal agency activities affecting any coastal use or resource of Ohio's coastal zone must be undertaken in a manner consistent to the maximum extent practicable with the enforceable policies of the Ohio Coastal Management Program.

It appears unlikely that this proposed activity would affect any coastal use or resource of Ohio's coastal zone. However, Federal agencies shall determine which of their activities affect any coastal use or resource of States with approved management programs (15 C.F.R. § 930.33). If you would like any additional information or want to submit a project for Federal Consistency review, please feel free to contact Steve Holland at 419-609-4104 or steve.holland@dnr.state.oh.us.

Water Resources: The Division of Water Resources has the following comment.

The local floodplain administrator should be contacted concerning the possible need for any floodplain permits or approvals for this project. Your local floodplain administrator contact information can be found at the website below.

http://water.ohiodnr.gov/portals/soilwater/pdf/floodplain/Floodplain%20Manager%20Community%20Contact%20List_8_16.pdf

ODNR appreciates the opportunity to provide these comments. Please contact Sarah Tebbe, Environmental Specialist, at (614) 265-6397 or Sarah.Tebbe@dnr.state.oh.us if you have questions about these comments or need additional information.

This Worksheet was designed to be used by those "Partners" (including Public Housing Authorities, consultants, contractors, and nonprofits) who assist Responsible Entities and HUD in preparing environmental reviews, but legally cannot take full responsibilities for these reviews themselves. Responsible Entities and HUD should use the RE/HUD version of the Worksheet.

Flood Insurance (CEST and EA) – PARTNER

https://www.hudexchange.info/environmental-review/flood-insurance

1. **Does this project involve mortgage insurance, refinance, acquisition, repairs, rehabilitation, or construction of a structure, mobile home, or insurable personal property**?

   ☐No. This project does not require flood insurance or is excepted from flood insurance.
   → *Continue to the Worksheet Summary.*

   ☒Yes → *Continue to Question 2.*

2. **Provide a FEMA/FIRM map showing the site.**
   The Federal Emergency Management Agency (FEMA) designates floodplains. The FEMA Map Service Center provides this information in the form of FEMA Flood Insurance Rate Maps (FIRMs).

   Is the structure, part of the structure, or insurable property located in a FEMA-designated Special Flood Hazard Area?

   ☒ No → *Continue to the Worksheet Summary.*

   ☐ Yes → *Continue to Question 3.*

3. **Is the community participating in the National Flood Insurance Program *or* has less than one year passed since FEMA notification of Special Flood Hazards?**

   ☐ Yes, the community is participating in the National Flood Insurance Program.
   Flood insurance is required. Provide a copy of the flood insurance policy declaration or a paid receipt for the current annual flood insurance premium and a copy of the application for flood insurance.
   → *Continue to the Worksheet Summary.*

   ☐ Yes, less than one year has passed since FEMA notification of Special Flood Hazards.
   If less than one year has passed since notification of Special Flood Hazards, no flood Insurance is required.
   → *Continue to the Worksheet Summary.*

   ☐ No. The community is not participating, or its participation has been suspended.
   Federal assistance may not be used at this location. Cancel the project at this location.

Worksheet Summary

Provide a full description of your determination and a synopsis of the information that it was based on, such as:

- Map panel numbers and dates
- Names of all consulted parties and relevant consultation dates
- Names of plans or reports and relevant page numbers
- Any additional requirements specific to your program or region

Include all documentation supporting your findings in your submission to HUD.

Utilized the FEMA Firmette maps to determine that all these properties fall outside the 1% chance of annual flood risk for the City of Sandusky, copy of the map provided.

RE: Federal Consistency Review Pursuant to the Coastal Zone Management Act of 1972

Dear Cindy:

This letter regards the Federal Consistency determination received by our office on October 13, 2020. The determination relates to an environmental review for the U.S. Department of Housing and Urban Development's five-year Capital Fund Improvements and Energy Performance Contract. Portions of the proposed project lie within Ohio's designated coastal zone. Federal financial assistance activities for projects within or affecting Ohio's coastal zone must be consistent with the policies of the Ohio Coastal Management Program, which is administered by the Ohio Department of Natural Resources (ODNR) Office of Coastal Management.

This letter is to inform you that ODNR concurs with your Federal Consistency determination. No further coordination with this office regarding Federal Consistency is required. If you need additional information or have questions, please contact me at steve.holland@dnr.ohio.gov or (419) 609-4104.

Sincerely,

Digitally signed by

Columbus, OH 43229

RE: Erie Metropolitan Housing Authority, Erie County, Ohio
Capital Fund Improvements

Dear Ms. Tebbe:

The Erie Metropolitan Housing Authority is in the process of performing an environmental review pursuant to the National Environmental Policy Act for the Broad-Level Tiered Review for the United States Department of Housing and Urban Development in order that it may access the environmental impacts for their 5-year Capital Fund Improvements and Energy Performance Contract.

Enclosed is a completed Data Request Form with attached an U.S. Geological Survey map(s) that depicts the proposal's construction activities and a description of the work involved.

We request that your office review the proposal for any State and Federally-listed threatened and endangered species, including Migratory Bird, any Coastal Barrier Resource and Coastal Zone Management implications and any other important State natural resources that may occur in the project area. Please provide any recommendations you may have to mitigate or avoid these impacts.

We would appreciate a response within 30 days. If you need any further information or wish to discuss this project, please contact me at 330/674-9600 or psewing@wsos.org.

Sincerely,

Cindy Brookes

DATA REQUEST FORM

OHIO DEPARTMENT OF NATURAL RESOURCES
DIVISION OF NATURAL AREAS AND PRESERVES
OHIO NATURAL HERITAGE PROGRAM
2045 MORSE RD., BLDG. F-1
COLUMBUS, OHIO 43229-6693
PHONE: 614-265-6453; FAX: 614-267-3096

INSTRUCTIONS:
Please complete both sides of this form, sign and return it to the address or fax number given above along with: **(1)** a brief letter describing your project, and **(2)** a map detailing the boundaries of your project site. A copy of the pertinent portion of a USGS 7.5 minute topographic map is preferred but other maps are acceptable. Our turnaround time is two weeks, although we can often respond more quickly. If you fax in your request you do not need to mail the original unless otherwise requested.

FEES:
Fees are determined by the amount of time it takes to complete your project. The charge is $50.00 per half hour with a one hour minimum. A cost estimate can be provided upon request. An invoice will be included with our response.

WHAT WE PROVIDE: The Natural Heritage Database is the most comprehensive source of information on the location of Ohio's rare species and significant natural features. Our inventory program has not completely surveyed Ohio and relies on information supplied by many individuals and organizations. Therefore, a lack of records for any particular area is not a statement that rare species or unique features are absent from that area. Records for the following will be provided from the Natural Heritage Database: plants and animals (state and federal listed species), high quality examples of natural plant communities, geologic features, breeding animal concentrations, and unprotected natural areas. In addition, we report locations for managed areas including federal, state, county, local and non-profit areas, as well as state and national scenic rivers. Natural Heritage Data can be provided in many formats, including GIS shapefiles, spreadsheets, printed reports or maps. A minimum one mile radius around the project site will automatically be searched. Because Natural Heritage data is sensitive information, it is our policy to provide only the data needed to complete your project.

Re: 19-984; Erie Metropolitan Housing Authority Capital Fund Improvement Broad-Level Tier Review

Project: The proposed project involves the rehabilitation of public housing.

Location: The proposed project is located in the City of Sandusky, Erie County, Ohio.

The Ohio Department of Natural Resources (ODNR) has completed a review of the above referenced project. These comments were generated by an inter-disciplinary review within the Department. These comments have been prepared under the authority of the Fish and Wildlife Coordination Act (48 Stat. 401, as amended; 16 U.S.C. 661 et seq.), the National Environmental Policy Act, the Coastal Zone Management Act, Ohio Revised Code and other applicable laws and regulations. These comments are also based on ODNR's experience as the state natural resource management agency and do not supersede or replace the regulatory authority of any local, state or federal agency nor relieve the applicant of the obligation to comply with any local, state or federal laws or regulations.

Natural Heritage Database: The Natural Heritage Database has the following records at or within a one-mile radius of the project area.

Cattle egret (*Bubulcus ibis*), State endangered
Black-crowned night—heron (*Nycticorax nycticorax*), State threatened
Common tern (*Sterna hirundo*), State endangered
Pipe Creek Wildlife Area – ODNR Division of Wildlife

The review was performed on the project area you specified in your request as well as an additional one-mile radius. Records searched date from 1980. This information is provided to inform you of features present within your project area and vicinity.

Please note that Ohio has not been completely surveyed and we rely on receiving information from many sources. Therefore, a lack of records for any particular area is not a statement that rare species or unique features are absent from that area. Although all types of plant communities have been surveyed, we only maintain records on the highest quality areas.

Fish and Wildlife: The Division of Wildlife (DOW) has the following comments.

The DOW recommends that impacts to streams, wetlands and other water resources be avoided and minimized to the fullest extent possible, and that best management practices be utilized to minimize erosion and sedimentation.

The project is within the range of the Indiana bat (*Myotis sodalis*), a state endangered and federally endangered species. The following species of trees have relatively high value as potential Indiana bat roost trees to include: shagbark hickory (*Carya ovata*), shellbark hickory (*Carya laciniosa*), bitternut hickory (*Carya cordiformis*), black ash (*Fraxinus nigra*), green ash (*Fraxinus pennsylvanica*), white ash (*Fraxinus americana*), shingle oak (*Quercus imbricaria*), northern red oak (*Quercus rubra*), slippery elm (*Ulmus rubra*), American elm (*Ulmus americana*), eastern cottonwood (*Populus deltoides*), silver maple (*Acer saccharinum*), sassafras (*Sassafras albidum*), post oak (*Quercus stellata*), and white oak (*Quercus alba*). Indiana bat roost trees consists of trees that include dead and dying trees with exfoliating bark, crevices, or cavities in upland areas or riparian corridors and living trees with exfoliating bark, cavities, or hollow areas formed from broken branches or tops. However, Indiana bats are also dependent on the forest structure surrounding roost trees. If suitable habitat occurs within the project area, the DOW recommends trees be conserved. If suitable habitat occurs within the project area and trees must be cut, the DOW recommends cutting occur between October 1 and March 31. If suitable trees must be cut during the summer months, the DOW recommends a net survey be conducted between June 1 and August 15, prior to any cutting. Net surveys should incorporate either nine net nights per square 0.5 kilometer of project area, or four net nights per kilometer for linear projects. If no tree removal is proposed, this project is not likely to impact this species.

The project is within the range of the eastern pondmussel *(Ligumia nasuta*), a state endangered mussel, the black sandshell (*Ligumia recta*), a state threatened mussel, the threehorn wartyback (*Obliquaria reflexa*), a state threatened mussel, and the fawnsfoot (*Truncilla donaciformis*), a state threatened mussel. Due to the location, and that there is no in-water work proposed in a perennial stream, this project is not likely to impact these species.

The project is within the range the brook trout (*Salvelinus fontinalis*), a state endangered fish, and the channel darter (*Percina copelandi*), a state threatened fish. Due to the location, and that there is no in-water work proposed in a perennial stream, this project is not likely to impact these species.

The project is within the range of the eastern massasauga (*Sistrurus catenatus*), a state endangered and federally threatened snake species. The eastern massasauga uses a range of habitats including wet prairies, fens, and other wetlands, as well as drier upland habitat. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the Kirtland's snake (*Clonophis kirtlandii*), a state threatened species. This secretive species prefers wet fields and meadows. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the smooth greensnake (*Opheodrys vernalis*), a state endangered species. This species is primarily a prairie inhabitant, but also found in marshy meadows and roadside ditches. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the Blanding's Turtle (*Emydoidea blandingii*), a state threatened species. This species inhabits marshes, ponds, lakes, streams, wet meadows, and swampy

forests. Although essentially aquatic, the Blanding's turtle will travel over land as it moves from one wetland to the next. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the American bittern (*Botaurus lentiginosus*), a state endangered bird. Nesting bitterns prefer large undisturbed wetlands that have scattered small pools amongst dense vegetation. They occasionally occupy bogs, large wet meadows, and dense shrubby swamps. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the common tern (*Sterna hirundo*), a state endangered bird. The preferred nesting sites of common terns are natural or man-made islands that are free of mammalian predators and human disturbance. They will also utilize mainland beaches and dredge disposal areas but only when islands are unavailable. The common tern nests in colonies. Their eggs are laid in a grass-lined depression in the sand. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the king rail (*Rallus elegans*), a state endangered bird. Nests for this species are deep bowls constructed out of grass and usually hidden very well in marsh vegetation. Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the Upland Sandpiper (*Bartramia longicauda*), a state endangered bird. Nesting upland sandpipers utilize dry grasslands including native grasslands, seeded grasslands, grazed and ungrazed pasture, hayfields, and grasslands established through the Conservation Reserve Program (CRP). Due to the location, and the type of work proposed, this project is not likely to impact this species.

The project is within the range of the piping plover (*Charadrius melodus*), a state and federally endangered bird species, and the Kirtland's warbler (*Setophaga kirtlandii*), a state endangered bird. These species do not nest in the state but only utilize stopover habitat as they migrate through the region. Therefore, this project is not likely to have an impact on these species.

Due to the potential of impacts to federally listed species, as well as to state listed species, we recommend that this project be coordinated with the U.S. Fish & Wildlife Service.

Coastal Management: The Office of Coastal Management has the following comment.

The Office of Coastal Management comments that pursuant to the Coastal Zone Management Act of 1972, as amended, and its corresponding federal regulations, all Federal agency activities affecting any coastal use or resource of Ohio's coastal zone must be undertaken in a manner consistent to the maximum extent practicable with the enforceable policies of the Ohio Coastal Management Program.

It appears unlikely that this proposed activity would affect any coastal use or resource of Ohio's coastal zone. However, Federal agencies shall determine which of their activities affect any coastal use or resource of States with approved management programs (15 C.F.R. § 930.33). If you would like any additional information or want to submit a project for Federal Consistency review, please feel free to contact Steve Holland at 419-609-4104 or steve.holland@dnr.state.oh.us.

Water Resources: The Division of Water Resources has the following comment.

The local floodplain administrator should be contacted concerning the possible need for any floodplain permits or approvals for this project. Your local floodplain administrator contact information can be found at the website below.

http://water.ohiodnr.gov/portals/soilwater/pdf/floodplain/Floodplain%20Manager%20Community%20Contact%20List_8_16.pdf

ODNR appreciates the opportunity to provide these comments. Please contact Sarah Tebbe, Environmental Specialist, at (614) 265-6397 or Sarah.Tebbe@dnr.state.oh.us if you have questions about these comments or need additional information.

RE: Erie Metropolitan Housing Authority, Erie County, Ohio
Capital Fund Program OH-12P028501-18 and OH-12P028501-19 Funding Projects
Energy Performance Contracting Funding (Scattered General)

Dear Mr. Biehl:

The Erie Metropolitan Housing Authority (EMHA) are in the process of performing an environmental review pursuant to the National Environmental Policy Act for utilization of the above listed funding projects in order that it may assess the environmental impacts of proposed for all the addresses listed on the Section 106 form provided.

Enclosed is a Section 106 Review-Project Summary Form with attached U.S. Geological map(s) that depict the proposal's area of potential effect for all construction activities, photos and a description of the work involved.

The EMHA requests the assistance of your office in identifying historic properties that are listed or eligible for listing on the National Register of Historic Places and that may be affected by the project. Please provide any recommendations you may have to mitigate or avoid these impacts, to properties that may be affected.

We would appreciate a response within 30 days. If you need further information or wish to discuss the project please contact me at 419-397-2648 or cabrookes@glcap.org.

C. City/Township: Sandusky

D. County: Erie County

E. Federal Agency and Agency Contact. *If you do not know the federal agency involved in your project, please contact the party asking you to apply for Section 106 Review, not OHPO, for this information*. *HUD Entitlement Communities acting under delegated environmental review authority should list their own contact information.*

HUD, Andrea Vrankar

F. Type of Federal Assistance. *List all known federal sources of federal funding, approvals, and permits to avoid repeated reviews.*

Capital Fund Program and Energy Performance Contracting

G. State Agency and Contact Person (if applicable):

H. Type of State Assistance:

I. Is this project being submitted at the direction of a state agency **solely** under Ohio Revised Code 149.53 or at the direction of a State Agency? *Answering yes to this question means that you are sure that no federal funding, permits or approvals will be used for any part of your project, and that you are seeking comments only under ORC 149.53.*

YES (NO)

J. Public Involvement- Describe how the public has been/will be informed about this project and its potential to affect historic properties. Please summarize how they will have an opportunity to provide comments about any effects to historic properties. (This step is required for all projects under 36 CFR § 800.2):

Yes, there was a public meeting held on February 13, 2020 in connection with their 5-year Capital Fund Program and all monthly Board meetings are open to the public for comments and concerns also.

K. Please list other consulting parties that you have contacted/will contact about this project, such as Indian Tribes, Certified Local Governments, local officials, property owners, or preservation groups. (See 36 CFR § 800.2 for more information about involving other consulting parties). Please summarize how they will have an opportunity to provide comments:

Since work will all be cosmetic with no breaking ground required Indian Tribes were not contacted. Letter is also being sent to the City of Sandusky Certified Local Government Representative, Thomas Horsman.

SECTION 2: PROJECT DESCRIPTION AND AREA OF POTENTIAL EFFECTS (APE)

Provide a description of your project, its site, and geographical information. You will also describe your project's Area of Potential Effects (APE). Please refer to the Instructions or contact an OHPO reviewer if you need help with developing the APE or completing this form.

See attached description.

For challenging projects, provide as much information as possible in all sections, and then check the box in Section 5.A. to ask OHPO to offer preliminary comments or make recommendations about how to proceed with your project consultation. This is recommended if your project involves effects to significant historic properties or if there may be challenging procedural issues related to your project. Please note that providing information to complete all Sections will still be required and that asking OHPO for preliminary comments may tend to delay completion of the review process for some projects.

A. Does this project involve any Ground-Disturbing activity: YES (NO)
(If **Yes**, you must complete all of Section 2.A. If **No**, proceed directly to Section 2. B.)

1. General description of width, length and depth of proposed ground disturbing activity:

   See attached project description.

2. Narrative description of previous land use and past ground disturbances, if known:

3. Narrative description of current land use and conditions:

4. Does the landowner know of any archaeological resources found on the property?
YES NO If yes, please describe:

B. Submit the exact project site location on a USGS 7.5-minute topographic quadrangle map for all projects. Map sections, photocopies of map sections, and online versions of USGS maps are acceptable as long as the location is clearly marked. Show the project's Area of Potential Effects (APE). It should be clearly distinguished from other features shown on the map:

1. USGS Quad Map Name: **Sandusky**

2. Township/City/Village Name: Sandusky

C. Provide a street-level map indicating the location of the project site; road names must be identified and legible. Your map must show the exact location of the boundaries for the project site. Show the project's Area of Potential Effects (APE). It should be clearly distinguished from other features shown on the map:

D. Provide a verbal description of the APE, including a discussion of how the APE will include areas with the potential for direct and indirect effects from the project. Explain the steps taken to identify the project's APE, and your justification for the specific boundaries chosen:

See attached description

E. Provide a detailed description of the project. This is a critical part of your submission. Your description should be prepared for a cold reader who may not be an expert in this type of project. The information provided must help support your analysis of effects to historic properties, not other types of project impacts. Do not simply include copies of environmental documents or other types of specialized project reports. If there are multiple project alternatives, you should include information about all alternatives that are still under active consideration:

See attached description

SECTION 3: IDENTIFICATION OF HISTORIC PROPERTIES

Describe whether there are historic properties located within your project APE. To make that determination, use information generated from your own Background Research and Field Survey. Then choose one of the following options to report your findings. Please refer to the Instructions and/or contact an OHPO reviewer if you are unsure about how to identify historic properties for your project.

If you read the Instructions and you're still confused as to which reporting option best fits your project, or you are not sure if your project needs a survey, you may choose to skip this section, but provide as much supporting documentation as possible in all other Sections, then check the box in Section 5.A. to request preliminary comments from OHPO. After reviewing the information provided, OHPO will then offer comments as to which reporting option is best

suited to document historic properties for your project. Please note that providing information to complete this Section will still be required and that asking OHPO for preliminary comments may tend to delay completion of the review process for some projects.

Recording the Results of Background Research and Field Survey:

A. **Summary of discussions and/or consultation with OHPO** about this project that demonstrates how the Agency Official and OHPO have agreed that no Field Survey was necessary for this project (typically due to extreme ground disturbance or other special circumstances). Please **attach copies** of emails/correspondence that document this agreement. You must explain how the project's potential to affect both archaeological and historic resources were considered.

B. **A table that includes the minimum information** listed in the OHPO Section 106 Documentation Table (which is generally equivalent to the information found on an inventory form). This information must be printed and mailed with the Project Summary Form. To provide sufficient information to complete this Section, you must also include summary observations from your field survey, background research and eligibility determinations for each property that was evaluated in the project APE.

C. **OHI (Ohio Historic Inventory) or OAI (Ohio Archaeological Inventory) forms**- New or updated inventory forms may be prepared using the OHI pdf form with data population capabilities, the Internet IForm, or typed on archival quality inventory forms. To provide sufficient information to complete this Section, you must include summary observations from your field survey and background research. You must also include eligibility determinations for each property that was evaluated in the project APE

D. **A historic or archaeological survey report** prepared by a qualified consultant that meets professional standards. The survey report should meet the Secretary of the Interior's Standards and Guidelines for Identification and OHPO Archaeological Guidelines. You may also include new inventory forms with your survey, or update previous inventory forms. To complete this section, your survey report must include summary observations from your field survey, background research and eligibility determinations for each property that was evaluated within the APE.

E. **Project Findings**. Based on the conclusions you reached in completing Section 3, please choose one finding for your project. There are (mark one):

Historic Properties Present in the APE: There are historic properties within the APE but the properties listed in this report have not been found on the list of National Historic Properties and also not believed to be eligible for listing. All work planned is to all the property to remain functional for its intended purpose and there for believe to be not of any impact.

No Historic Properties Present in the APE:

SECTION 4: SUPPORTING DOCUMENTATION

This information must be provided for all projects.

A. Photographs must be keyed to a street-level map, and should be included as attachments to this application. Please label all forms, tables and CDs with the date of your submission and project name, as identified in Section 1. You must present enough documentation to clearly show existing conditions at your project site and convey details about the buildings, structures or sites that are described in your submission. Faxed or photocopied photographs are not acceptable. See Instructions for more info about photo submissions or 36 CFR § 800.11 for federal documentation standards.
    1. Provide photos of the entire project site and take photos to/from historic properties from/towards your project site to support your determination of effect in Section 5.
    2. Provide current photos of all buildings/structures/sites described.

B. Project plan, specifications, site drawings and any other media presentation that conveys detailed information about your project and its potential to affect historic properties.

C. Copies or summaries of any comments provided by consulting parties or the public.

SECTION 5: DETERMINATION OF EFFECT

A. **Request Preliminary Comments.** For challenging projects, provide as much information as possible in previous sections and ask OHPO to offer preliminary comments or make recommendations about how to proceed with your project consultation. This is recommended if your project involves effects to significant historic properties, if the public has concerns about your project's potential to affect historic properties, or if there may be challenging procedural issues related to your project. Please be aware that providing information in all Sections will still be required and that asking OHPO for preliminary comments may tend to delay completion of the review process for some projects.

    1. We request preliminary comments from OHPO about this project:
       YES (NO)

    2. Please specify as clearly as possible the particular issues that you would like OHPO to examine for your project (for example- help with developing an APE, addressing the concerns of consulting parties, survey methodology, etc.):

B. **Determination of Effect.** If you believe that you have gathered enough information to conclude the Section 106 process, you may be ready to make a determination of effect and ask OHPO for concurrence, while considering public comments. Please select and mark one of the following determinations, then explain the basis for your decision on an attached sheet of paper:

    No historic properties will be affected based on 36 CFR § 800.4(d) (1). Please explain how you made this determination:

    It is believed that no historic property will be affected since none of the properties on the National Register listing and they are not believed to be eligible for listing. Work proposed is for the improvement of the property to continue under is current function.

    No Adverse Effect [36 CFR § 800.5(b)] on historic properties. This finding cannot be used if there are no historic properties present in your project

APE. Please explain why the Criteria of Adverse Effect, [36 CFR Part 800.5(a) (1)], were found not to be applicable for your project:

Adverse Effect [36 CFR § 800.5(d) (2)] on historic properties. Please explain why the criteria of adverse effect, [36 CFR Part 800.5(a) (1)], were found to be applicable to your project. You may also include an explanation of how these adverse effects might be avoided, reduced or mitigated:

Please print and mail completed form and supporting documentation to:

Fri 8/14/2020 12:40 PM

To: Cynthia Brookes <cabrookes@glcap.org>

Dear Ms. Brooks,

This email is in response to correspondence received by the Ohio SHPO on July 16, 2020, regarding the above listed project. At this time, we do not have sufficient information to complete our review.

Under 36 CFR 800.4(d), federal agencies are required to make an effect determination regarding their undertakings and should request concurrence from the applicable State Historic Preservation Officer. For each property, HUD or their representative needs to determine that this project is a Federal undertaking with the potential to affect historic properties, determine an Area of Potential Effect (APE), identify historic properties, and make a determination of effect for these properties. This work should be completed by someone who meets the Secretary of Interior's Professional Qualifications Standards.

In order to meet the minimum information requirements of 36 CFR 800, regulations implementing Section 106 of the National Historic Preservation Act, please provide the following information for each project:

1. The year the residence was constructed and the dates of any major additions. If the property is younger than 45 years old, we do not need to review it.
2. A scope of work for each project. HUD may determine that the scope of work does not have the potential to affect historic properties. In those cases, we do not need to review it.
3. A description of the APE for each of the proposed projects and how this APE was determined as described in 36 CFR 880.4(a)(1).
4. Current, color photos of each residence. Please do not just send us screen shots of Google Street Views. Most of those are not current or they do not exist for portions of Sandusky.
5. Please also send us color photos of street views on either side of the house and across the street. Make sure the photos show the adjacent houses and not just a view down the street.
6. Please revise the maps that were sent to be more at street level. Using one map to show all the addresses that are on the same street and within the same block is acceptable, but please label the dots with the addresses.
7. For the map pulled from our online GIS, please see #3 above. In addition to that, please also include the Ohio Historic Inventory (OHI) number with the blue dots, or the National Register reference number with the red dots.
8. For each property, please provide a recommended determination of eligibility and an effect determination as required under 36 CFR 800.4(d).

We thank you in advance for this additional information. In the meantime, if you have any questions, please let us know.

Sincerely,

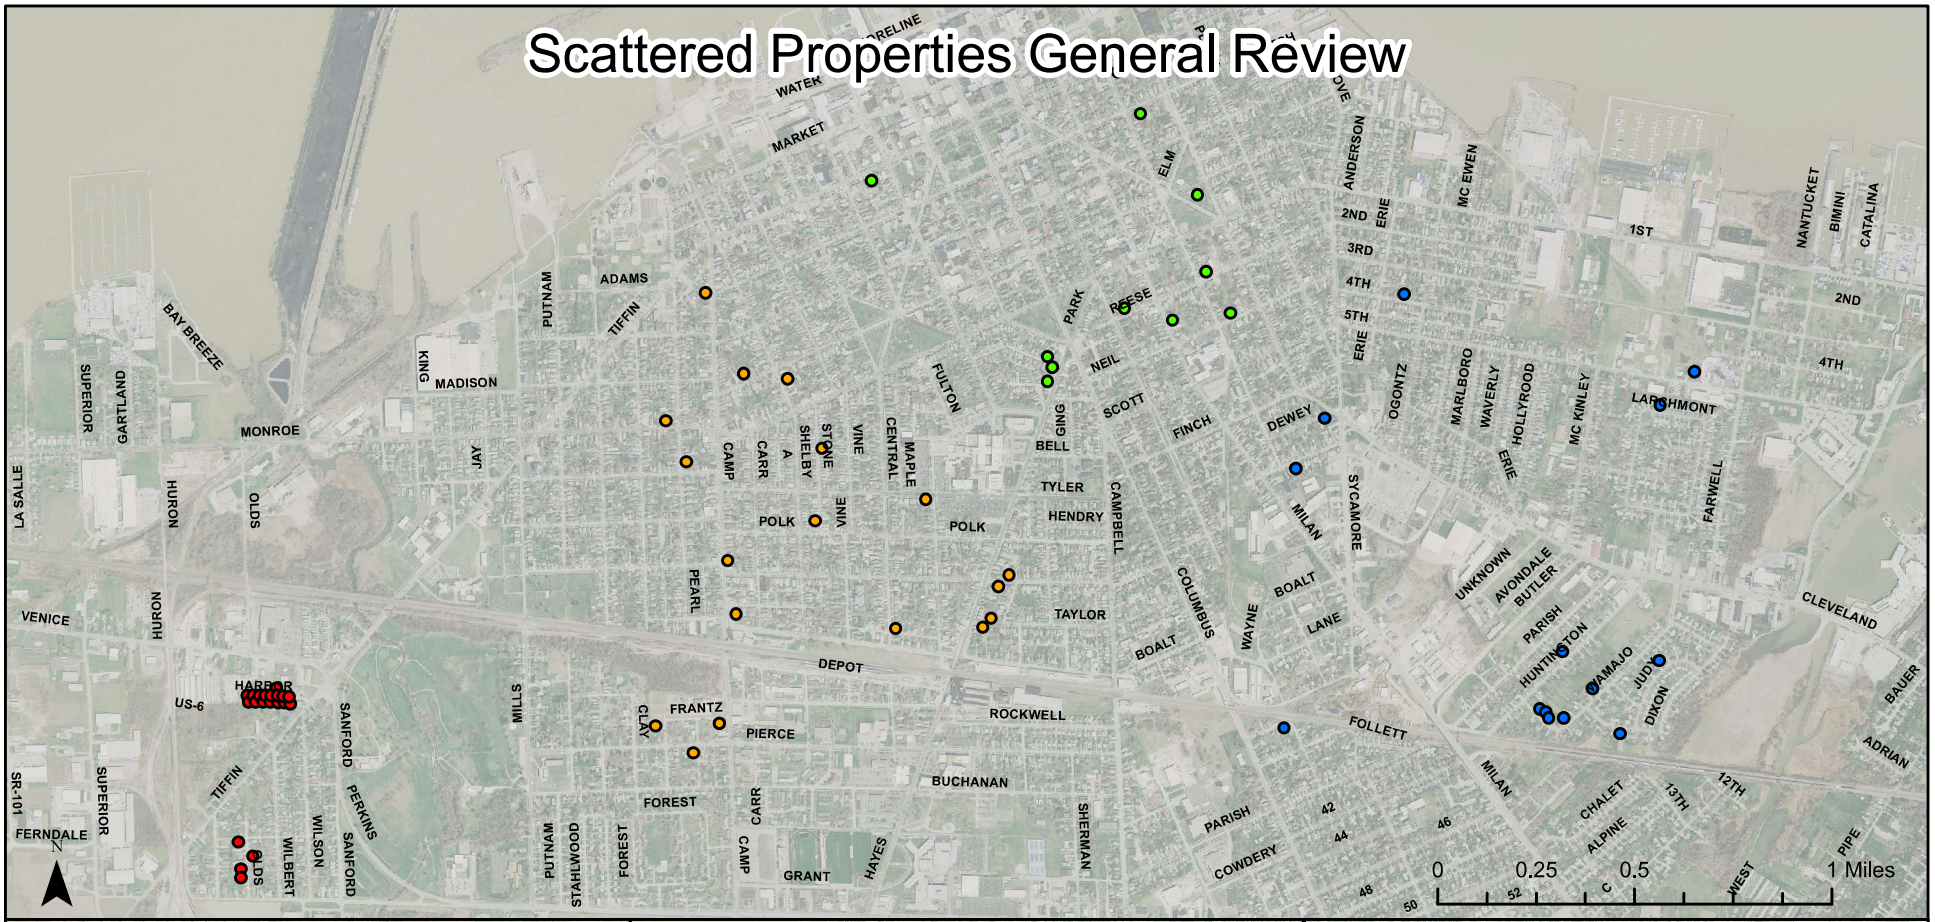

Kristen Koehlinger | Project Reviews Manager, State Historic Preservation Office
Ohio History Connection | 800 E. 17th Ave., Columbus, OH 43211-2474
p. 614-298-2000 | kkoehlinger@ohiohistory.org

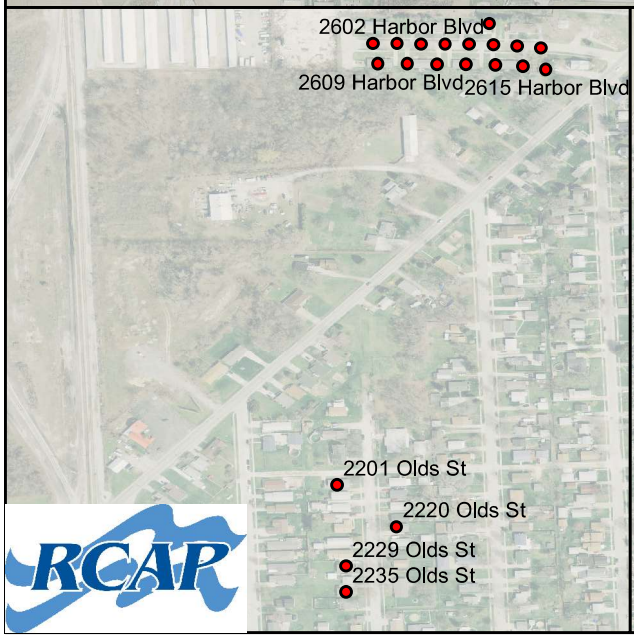

Determination for all properties

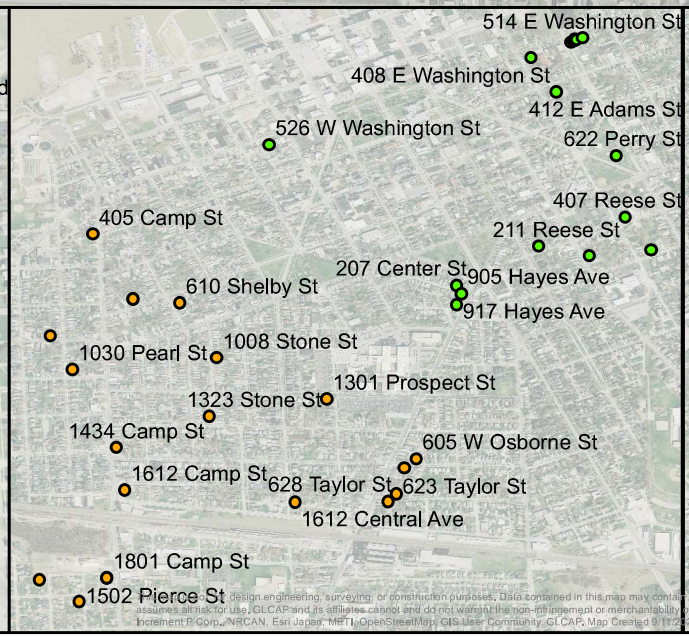

No historic properties will be affected based on 36 CFR § 800.4(d) (1). Please explain how you made this determination:

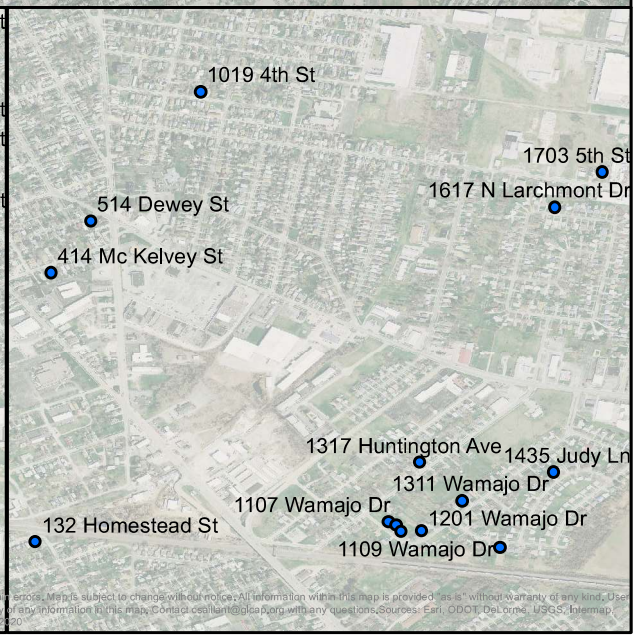

With the renovations to be complete on the properties as defined in the project description to include windows, furnaces and energy efficiency improvements, it is not believed this work will impact the historic structures in the area. EMHA structures have had previous exterior work completed including metal wrap on the windows.

Scattered Properties General Review

RE: EMHA – Energy Performance Contracting Funding
Various Addresses, Sandusky, Erie County, Ohio

Dear Ms. Brookes:

This letter is in response to correspondence received on September 21, 2020. The comments of the Ohio State Historic Preservation Office (SHPO) are made pursuant to Section 106 of the National Historic Preservation Act of 1966, as amended, and the associated regulations at 36 CFR Part 800.

The Erie Metropolitan Housing Authority (EMHA) is proposing to rehabilitate the residences listed in the attached listed. Proposed work will include window and/or furnace replacement at certain properties, and lighting and plumbing upgrades. You have requested the comments of SHPO regarding the effects of the proposed undertaking on historic properties.

A check of our records indicates that these properties are not listed in the National Register of Historic Places or included in the Ohio Historic Inventory. It is our opinion that they do not meet the minimum criteria for inclusion in the National Register of Historic Places. Therefore, the proposed rehabilitation will have no effect on historic properties. No further coordination with this office is necessary, unless there is a change in the proposed project.

If you have any questions, please contact me at kkoehlinger@ohiohistory.org or (614) 298-2000. Thank you for your cooperation.

Sincerely,

Kristen Koehlinger

Kristen Koehlinger, Project Reviews Manager

RE: Erie Metropolitan Housing Authority, Erie County, Ohio
Capital Fund Program OH-12P028501-18 and OH-12P028501-19 Funding Projects
Energy Performance Contracting Funding (Scattered General)

Dear Mr. Horsnor:

The Erie Metropolitan Housing Authority (EMHA) are in the process of performing an environmental review pursuant to the National Environmental Policy Act for utilization of the above listed funding projects in order that it may assess the environmental impacts of proposed for all the addresses listed on the Section 106 form provided.

I have also attached a copy of the Section 106 Review-Project Summary Form with attached U.S. Geological map(s) that depict the proposal's area of potential effect for all construction activities, and a description of the work involved.

The EMHA requests the assistance of your office in identifying properties within your historical districts and indicate whether there are any special review or permitting requirements for the proposed work at the properties indicated on the Section 106 Review-Project summary form.

We would appreciate a response within 30 days. If you need further information or wish to discuss the project please contact me at 419-397-2648 or cabrookes@glcap.org.

Sincerely,

Sr. Rural Development Specialist

Hi Cindy,

Thank you for inquiring about any additional approvals needed for this project. I have reviewed the addresses listed on the Section 106 project summary form and none of the properties are designated as historic structures, nor are any located in a designated historical district. They do not require any approvals from our Landmark Commission. Please let me know if you need any additional information.

Thank you,

Tom

RE: Erie Metropolitan Housing Authority Capital Fund and Energy Performance Improvements

Dear Reviewer:

Erie Metropolitan Housing Authority is in the process of performing a Broad-Level Tier environmental review pursuant to the National Environmental Policy Act for the United States Department of Housing and Urban Development, in order that it may assess the environmental impacts of the improvement involving replacements of windows, roofs and furnaces, doors, entries, plumbing, tubs and showers as well as energy performance upgrades such as lighting retrofits, lighting occupancy sensors, aerator upgrades, showerhead upgrades, air handler repairs, AC Covers, HVAC replacements, and energy efficient washers, dryers and dishwashers. For the location of project elements, see the attached project description, site photos, USGS topo, National Wetland Inventory (NWI), hydric soils and FIRMette mapping.

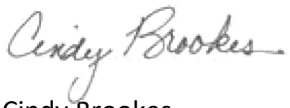

Our review has determined that hydric soils do exist in the project area and that designated wetlands may occur. According to the proposed project design, the designated wetlands, as shown on the National Wetland Inventory Map, will be avoided. Hydric soils have previously been impacted by construction of previously existing housing units with planned project elements of replacement or structural improvements but no new construction planned. No open cut areas of streams will occur. Floodplain of the Sandusky Bay exists with only 1 of the proposed project structures within the designated floodplain area. Construction activities will occur within the floodplain area for this specific property and a Tier II review will be requested when specific project details are defined by funding availability.

To satisfy USDA requirements for completion of the NEPA environmental review, we are requesting your agency provide a "No Department of Army Permit required" determination; or provide comments with respect to guidance on potential permitting requirements for the proposed project.

SUBJECT: No Permit Required for Application No. LRB- 2019-01499 (Erie Metropolitan Housing Authority Capital Fund and Energy Performance Improvements Project)

Cindy Brookes
Rural Community Assistance Program (RCAP)
Great Lakes Community Action Partnership
127 S. Front St., P.O. Box 590,
Fremont, Ohio 43420

Dear Ms. Brookes:

This pertains to the Erie Metropolitan Housing Authority Capital Fund and Energy Performance Improvements Project referenced in your letter dated November 15, 2019 (see attached). The project will involve the rehabilitation of several existing housing units owned by the Erie Metropolitan Housing Authority within the City of Sandusky, Erie County, Ohio.

Under Section 10 of the Rivers and Harbors Act (RHA) of 1899, the U.S. Army Corps of Engineers has regulatory authority over construction, excavation, or deposition of materials in, over or under navigable waters of the United States. Under Section 404 of the Clean Water Act (CWA), the U.S. Army Corps of Engineers regulates the discharge of dredged or fill material into waters of the United States, including wetlands.

The information contained in your submittal indicates that the proposed work will not involve a discharge of dredged or fill material into any waters of the U.S. or work in any navigable waters of the U.S. Therefore, I have determined that we have no jurisdiction over the proposal and no Section 10 RHA or Section 404 CWA permit is required.

Should you modify your proposal to entail a discharge of dredged or fill material into a waters of the United States you must contact this office regarding Department of the Army permit requirements.

Although a permit is not required, we request that proper measures be taken to prevent unintentional discharges from entering the waterway.

You are encouraged to contact the appropriate state and local governmental officials to insure that the proposed work complies with their requirements.

Regulatory Branch

SUBJECT: No Permit Required for Application No. LRB- 2019-01499 (Erie Metropolitan Housing Authority Capital Fund and Energy Performance Improvements Project)

Questions pertaining to this matter should be directed to me at (419) 898-3812, or by writing to the following address: U.S. Army Corps of Engineers, Buffalo District, Oak Harbor Field Office, 240 Lake Street, Unit D, Oak Harbor, Ohio 43449, or by email at paul.f.wetzel@usace.army.mil.

PROJECT DESCRIPTION

Your project description should follow the format below and provide sufficient information for the reviewer to understand the proposed project and provide constructive comments.

Project Name: ***Erie Metropolitan Housing Authority Capital Fund Improvements Broad-Lever Tiered Review***

Detailed Description of Project Components: **The work outlined in the five-year action plan by the Erie Metropolitan Housing Authority for their U. S. Department of Housing and Urban Development Capital Fund Program Action Plan indicated work at the Bay Shore Towers location and at the many other 94 other scattered housing sites across the City of Sandusky, Ohio. The work outlined work to rehabilitate public housing. Additional energy efficiency work through Phase II of the Energy Performance Contract (EPC) has been identified to be completed at Bay Shore Towers, the Erie County Senior Center and the 93 other scattered sites within the City of Sandusky are also included in this report.**

The rehabilitations listed for the Bay Shore Tower 5-year Capital Fund Program Action Plan to include such items as: Interior doors, Interior plumbing, tubs and showers, and other interior rehabilitation. Energy efficiency items have been identified through the Energy Performance Contract include: lighting retrofit, aerator upgrade, shower head upgrade, Energy star washing machine replacements, Energy star dryer replacements, air handler repair, AC covers and lighting occupancy sensors for the Bay Shore Tower location have also been identified.

Scatter site include 93 single family detached or semi detach, row or townhouse, 1 multifamily apartment, or non-dwelling structure locations scattered across the City of Sandusky. Street locations are listed in the project location and shown on the maps provided, these sites are listed to include renovations in the 5-year Capital Fund Program to include exterior windows and roofs. Additional Energy Performance Contract energy efficiency items have been since identified to be installed at the scattered sites and include lighting retrofit, aerator upgrade, shower head upgrade, window replacement, furnace replacement and roof replacement.

Not listed in the 5-year plan but included in this review is the Energy Performance Contract energy efficiency for the Erie County Senior Center have identified the need for the follow: lighting retrofit, rooftop unit replacements, makeup air unit replacement, hot water boiler replacement, high efficiency dishwasher, lighting occupancy sensors.

Description of Project Area: **This report covers the units and lots at various locations owned by the Erie Metropolitan Housing Authority within the City of Sandusky. They are located various addresses on Wamajo Street, Olds Street, Harbor Blvd., Stone Street, Fourth Street, Ashburn Drive, Huntington Avenue, Judy Lane, Pierce Street, Camp Street, North Larchmont, Center Street, West Monroe Street, East Adams Street, Meigs Street, East Washington Street, Taylor Street, Pearl Street, Sycamore Street, West Osborne, Hancock Street, Hayes Avenue, East Oldgate Road, Prospect Street, Homestead Avenue, Second Street, Reese Street, Shelby Street, Osbourne Street, West Market Street, West Madison**

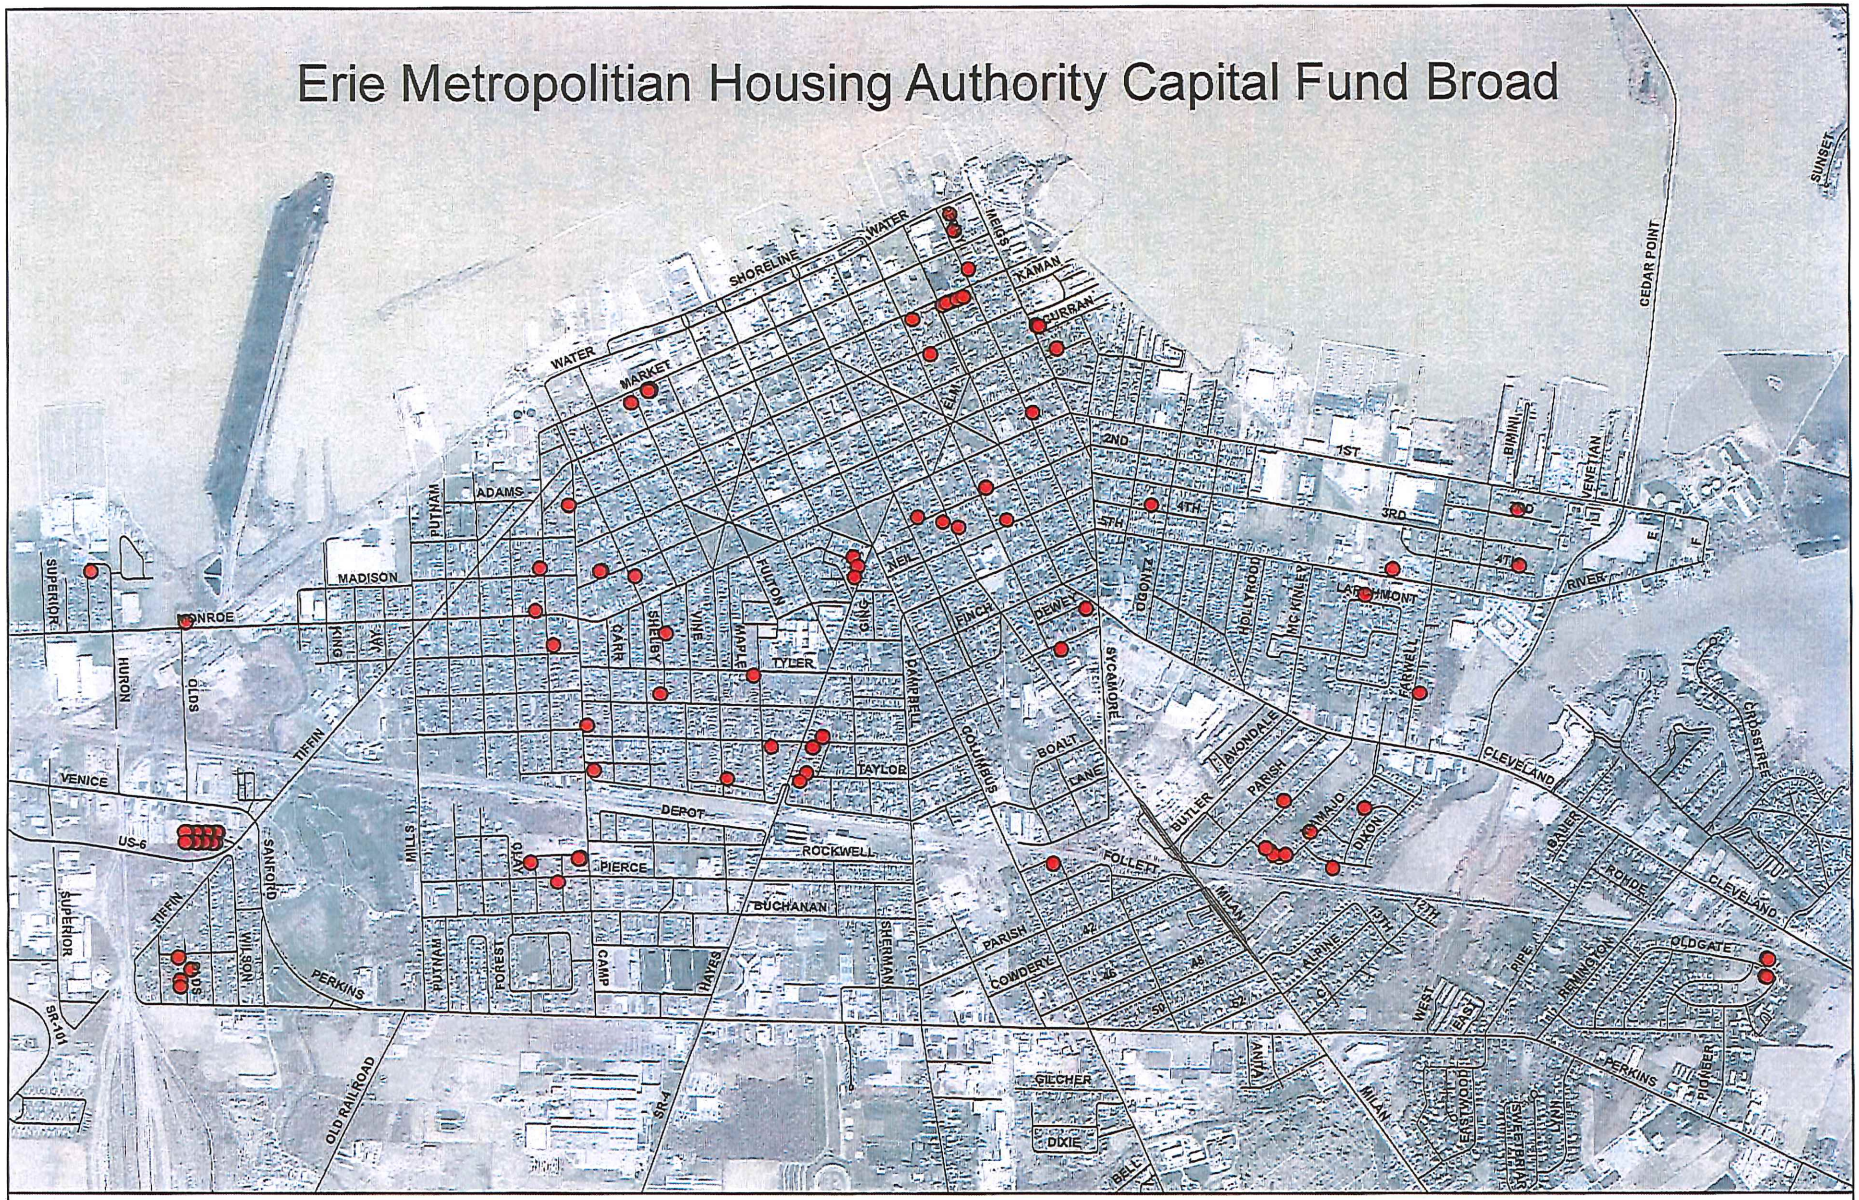

Street, Clinton Street, Lawrence Street, Perry Street, Dewey Street, Gartland, East Water, and Fifth Street. These properties are all located within the incorporated City of Sandusky, Erie County, Ohio.

Description of Potential Impacts: **The City of Sandusky has Sandusky Bay located on the west side of the city and Lake Erie to the North side. Coastal Barrier Resources can be located to the west across Sandusky Bay at Bay Point and to the east of the City at Sheldon's Marsh with no current Coastal Barrier Resources identified within the City of Sandusky. Several of the structures on the list fall within the Coastal Zone Management Area within the City of Sandusky residential areas. All structures are located outside of any area noted on the National Wetland Inventory map and one structure falls within the 1% annual chance of flood hazard with all other structures within the minimal risk area. Being that the City is a coastal community there are several structures located on hydric soils and a few on soils that have not been ranked. This community was founded in 1817 and in 1838 was designated as the County seat of Erie County, Ohio. Since this time the area has grown to a population of 25,793 based on the 2010 Census. The area where the EMHA structures are located have been long term residential or business areas of the city.**

OHIO KARST AREAS

EXPLANATION

- Silurian- and Devonian-age carbonate bedrock overlain by less than 20 feet of glacial drift and/or alluvium
- Silurian- and Devonian-age carbonate bedrock overlain by more than 20 feet of glacial drift and/or alluvium
- Interbedded Ordovician-age limestone and shale overlain by less than 20 feet of glacial drift and/or alluvium
- Interbedded Ordovician-age limestone and shale overlain by more than 20 feet of glacial drift and/or alluvium
- Probable karst areas
- Area not known to contain karst features
- Wisconsinan Glacial Margin
- Illinoian Glacial Margin

Recommended citation: Ohio Division of Geological Survey, 1999 (rev. 2002, 2006), Known and probable karst in Ohio: Ohio Department of Natural Resources, Division of Geological Survey Map EG-1, generalized page-size version with text, 2 p., scale 1:2,000,000.

OHIO KARST AREAS

Karst is a landform that develops on or in limestone, dolomite, or gypsum by dissolution and that is characterized by the presence of characteristic features such as sinkholes, underground (or internal) drainage through solution-enlarged fractures (joints), and caves. While karst landforms and features are commonly striking in appearance and host to some of Ohio's rarest fauna, they also can be a significant geologic hazard. Sudden collapse of an underground cavern or opening of a sinkhole can cause surface subsidence that can severely damage or destroy any overlying structure such as a building, bridge, or highway. Improperly backfilled sinkholes are prone to both gradual and sudden subsidence, and similarly threaten overlying structures. Sewage, animal wastes, and agricultural, industrial, and ice-control chemicals entering sinkholes as surface drainage are conducted directly and quickly into the ground-water system, thereby posing a severe threat to potable water supplies. Because of such risks, many of the nation's state geological surveys, and the U.S. Geological Survey, are actively mapping and characterizing the nation's karst regions.

The five most significant Ohio karst regions are described below.

BELLEVUE-CASTALIA KARST PLAIN

The Bellevue-Castalia Karst Plain occupies portions of northeastern Seneca County, northwestern Huron County, southeastern Sandusky County, and western Erie County. Adjacent karst terrain in portions of Ottawa County, including the Marblehead Peninsula, Catawba Island, and the Bass Islands, is related in geologic origin to the Bellevue-Castalia Karst Plain. The area is underlain by up to 175 feet of Devonian carbonates (Delaware Limestone, Columbus Limestone, Lucas Dolomite, and Amherstburg Dolomite) overlying Silurian dolomite, anhydrite, and gypsum of the Bass Islands Dolomite and Salina Group.

The Bellevue-Castalia Karst Plain is believed to contain more sinkholes than any of Ohio's other karst regions. Huge, irregularly shaped, closed depressions up to 270 acres in size and commonly enclosing smaller, circular-closed depressions 5 to 80 feet in diameter pockmark the land between the village of Flat Rock in northeastern Seneca County and Castalia in western Erie County. Surface drainage on the plain is very limited, and many of the streams which are present disappear into sinkholes called swallow holes.

Karst in the Bellevue-Castalia and Lake Erie islands region is due to collapse of overlying carbonate rocks into voids created by the dissolution and removal of underlying gypsum beds. According to Verber and Stansbery (1953, Ohio Journal of Science), ground water is introduced into Salina Group anhydrite ($CaSO_4$) through pores and fractures in the overlying carbonates. The anhydrite chemically reacts with the water to form gypsum ($CaSO_4 \cdot 2H_2O$), undergoing a 33 to 62 percent increase in volume in the process. This swelling lifts overlying strata, thereby opening fractures and creating massive passageways for conduction of greater volumes of ground water through the Silurian Bass Islands Dolomite and into underlying Salina Group strata. Gypsum, being readily soluble in water, is dissolved, creating huge voids. Overlying carbonates then collapse or break down, leaving surface depressions similar to those resulting from roof failure of an underground mine.

DISSECTED NIAGARA ESCARPMENT

The dissected Niagara Escarpment of southwestern Ohio includes the largest single area of karst terrain in the state and the greatest number of surveyed caves. It also is estimated to include the second-largest number of sinkholes in the state. The area is underlain by Silurian rocks of the Peebles Dolomite, Lilley Formation, Bisher Formation, Estill Shale, and Noland Formation in Adams, Highland, and Clinton Counties and the Cedarville Dolomite, Springfield Dolomite, Euphemia Dolomite, Massie Shale, Laurel Dolomite, Osgood Shale, and Dayton Formation in Greene, Clark, Miami, Montgomery, and Preble Counties. The Peebles-Lilley-Bisher sequence and the Cedarville-Springfield-Euphemia sequence constitute the Lockport Group.

Most karst features along the Niagara Escarpment in southwestern Ohio are developed in Lockport Group strata. More than 100 sinkholes and caves developed in the Lockport have been documented in the field, and more than 1,000 probable sinkholes in the Lockport have been identified on aerial photographs, soils maps, and topographic maps. As with most karst terrain, sinkholes developed on the Niagara Escarpment commonly show linear orientations aligned with prevailing joint trends in the area. The greatest concentration of sinkholes on the escarpment is south of the Wisconsinan glacial border in southern Highland and Adams Counties, where highly dissected ridges capped by Silurian carbonate rocks rise 150 to 200 feet above surrounding drainage. Illinoian till in these areas is thin to absent, and soils are completely leached with respect to calcium and calcium-magnesium carbonate. Such geologic settings are ideal for active karst processes, as downward-percolating, naturally acidic rain water is not buffered until it has dissolved some of the underlying carbonate bedrock. Other significant karst features of the Niagara Escarpment include small caves in escarpment re-entrants created by the valleys of the Great Miami and Stillwater Rivers in Miami County.

BELLEFONTAINE OUTLIER

The Bellefontaine Outlier in Logan and northern Champaign Counties is an erosionally resistant "island" of Devonian carbonates capped by Ohio Shale and surrounded by a "sea" of Silurian strata. Though completely glaciated, the outlier was such an impediment to Ice Age glaciers that it repeatedly separated advancing ice sheets into two glacial lobes—the Miami Lobe on the west and the Scioto Lobe on the east. Most Ohioans recognize the outlier as the location of Campbell Hill—the highest point in the state at an elevation of 1,549 feet above mean sea level.

Although it is not known for having an especially well-developed karst terrain, the outlier is the location of Ohio's largest known cave, Ohio Caverns. The greatest sinkhole concentrations are present in McArthur and Rushcreek Townships of Logan County, where the density of sinkholes in some areas approaches 30 per square mile. Sinkholes here typically occur in upland areas of Devonian Lucas Dolomite or Columbus Limestone that are 30 to 50 feet or more above surrounding drainage and are covered by less than 20 feet of glacial drift and/or Ohio Shale.

SCIOTO AND OLENTANGY RIVER GORGES

The uplands adjacent to the gorges of the Scioto and Olentangy Rivers in northern Franklin and southern Delaware Counties include areas of well-developed, active karst terrain. These uplands also are among the most rapidly developing areas of the state, which means karst should be a consideration in site assessments for commercial and residential construction projects.

The Scioto River in this area has been incised to a depth of 50 to 100 feet into underlying bedrock, creating a shallow gorge. The floor, walls, and adjacent uplands of the gorge consist of Devonian Delaware and Columbus Limestones mantled by up to 20 feet of Wisconsinan till. Sinkhole concentrations up to 1 sinkhole per acre are not uncommon in Concord, Scioto, and Radnor Townships of Delaware County. The sinkholes range in diameter from about 10 to 100 feet and commonly are aligned linearly along major joint systems.

The Olentangy River is approximately 5 miles east of the Scioto River in southern Delaware County and occupies a gorge that is narrower and up to 50 feet deeper than the Scioto River gorge. The floor and the lower half of the walls along the Olentangy gorge are composed of Delaware and Columbus Limestones, the upper half of the walls is composed of Devonian Ohio and Olentangy Shales mantled by a thin veneer of glacial drift. Karst terrain has developed along portions of the gorge in a manner similar to karst terrain along the Scioto River.

ORDOVICIAN UPLANDS

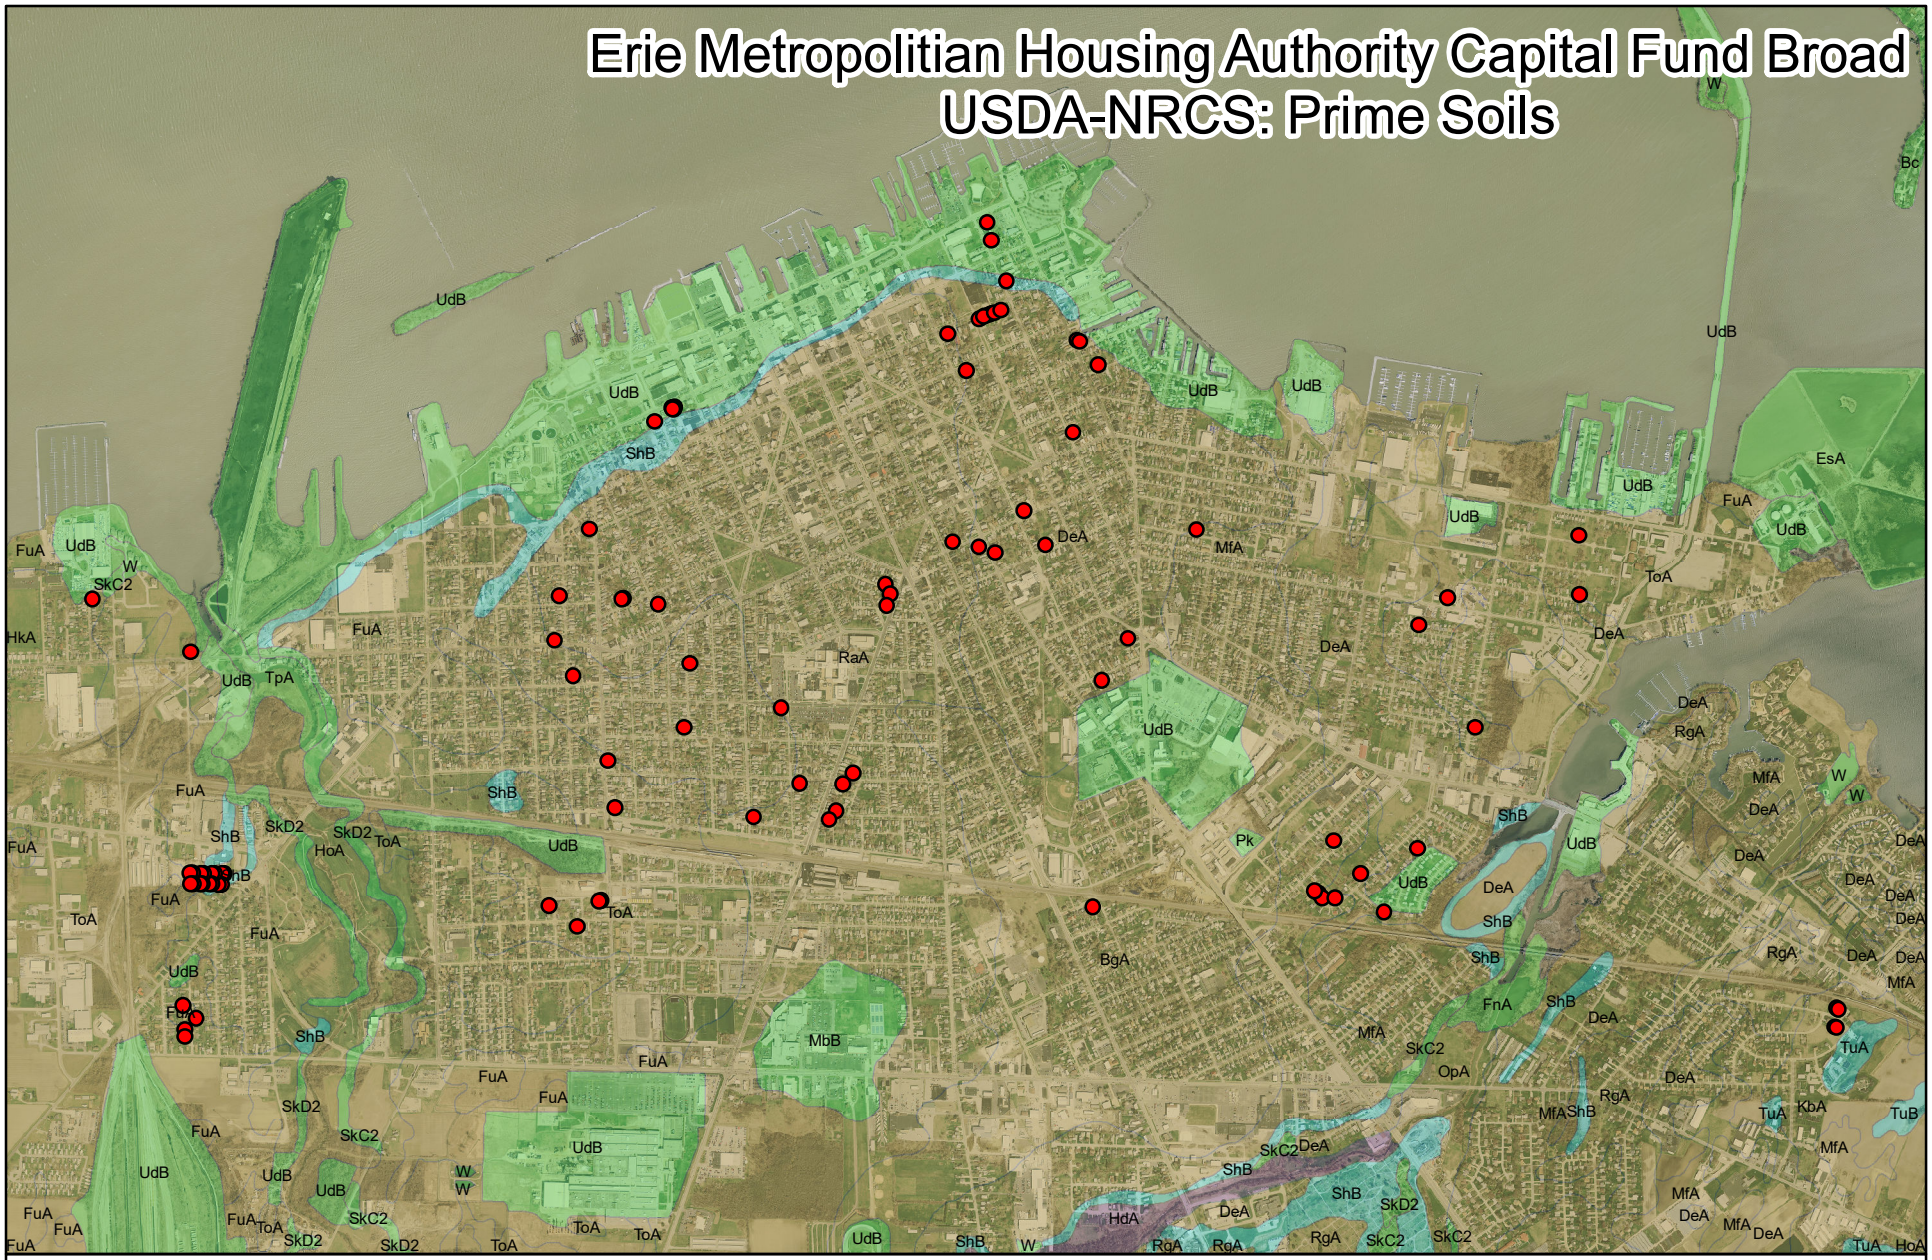

The Ordovician uplands of southwestern Ohio are the location of surprisingly well-developed karst terrain despite the large component of shale in local bedrock. Numerous sinkholes are present in Ordovician rocks of Adams, Brown, Clermont, and Hamilton Counties.

The carbonate-rich members of the Grant Lake Formation (Bellevue and Mount Auburn), Grant Lake Limestone (Bellevue and Straight Creek), and the upper portion of the Arnheim formation are the Ordovician units most prone to karstification; however, the shale-rich (70 percent shale, 30 percent limestone) Waynesville Formation also has been subjected to a surprising amount of karst development in southeastern Brown and southwestern Adams Counties, just north of the Ohio River.

ACKNOWLEDGMENT

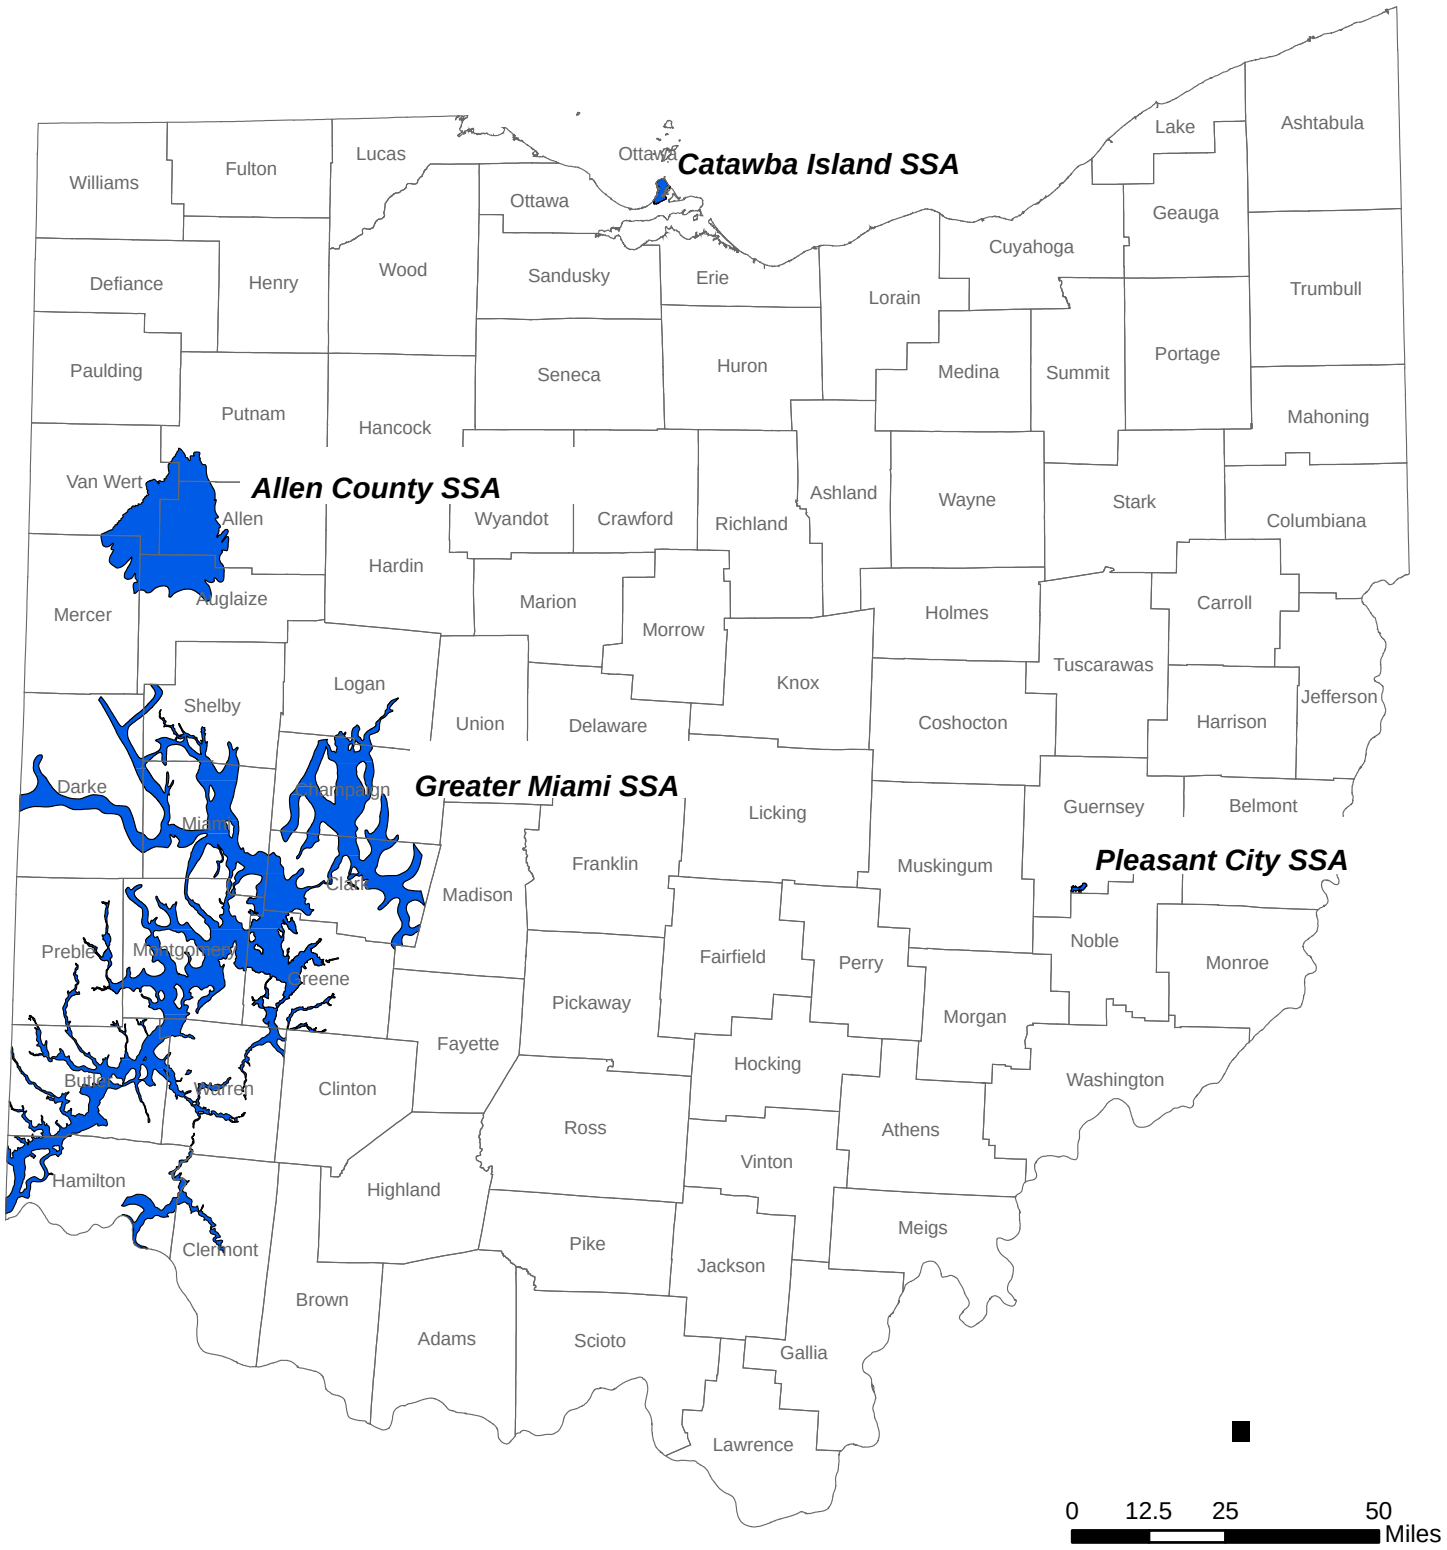

The Division of Geological Survey gratefully acknowledges the Ohio Low-Level Radioactive-Waste Facility Development Authority for its financial support for mapping Ohio karst terrain.

WILD AND SCENIC RIVER MAP

NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS

October 31, 2020

Erie County Board of Commissioners
2900 Columbus Avenue
Sandusky, Ohio 44870
419-627-7672

On or about November 16, 2020 the Erie County Board of Commissioners authorize the Erie Metropolitan Housing Authority to submit a request to the Cleveland HUD Public Housing Office for the release of the Capital Fund and Operating Fund funds under Section 9(j) of the 1937 US Housing Act, as amended to undertake projects identified in the Capital Funds Program five year action plan and the Energy Performance Contract for the purpose of installation of window replacements at 1612 Camp St., 1019 Fourth St., 502 E Washington St., 504 E Washington St., 506 E Washington St., 508 E Washington St., 2220 Olds St., 2229 Olds St., 2235 Olds St., 610 Shelby St., 908 Hancock St., 414 McKelvey St., 1801 Camp St. A, 1801 Camp St. B, 622 Perry St., 405 Camp St., 1227 W Madison St. A, 1227 W Madison St. B, 623 Taylor St., 407 Reese St., 411 Neil St., 917 Hayes St., 2201 Olds St., and 412 E Adams St.
Furnace replacements identified for: 1612 Camp St., 1019 Fourth St., 1317 Huntington Ave., 502 E Washington St., 504 E Washington St., 506 E Washington St., 508 E Washington St., 526 E Washington St., 908 Hancock St., 1435 Judy Ln., 1617 N Larchmont Dr., 1030 Pearl St., 610 Shelby St., 1222 Ashburn St., 414 McKelvey St., 1801 Camp St. A and B, 1612 Central Ave., 411 Neil St., 514 Dewey St. A, 514 E Washington St., 407 Reese St., 408 E Washington St., 132 Homestead Ave.. 628 Taylor St., 917 Hayes Ave., 1323 Stone St., 1509 W Monroe St., 905 Hayes Ave., and 623 Taylor St.
Energy efficiency items of lighting retrofit, aerator upgrade, and shower head upgrade at:1109 Wamajo Dr., 1113 Wamajo Dr., 2201 Olds St.,2220 Olds St., 2229 Olds St., 2235 Olds St., 2601 Harbor Blvd., 2603 Harbor Blvd., 2602 Harbor Blvd., 2604 Harbor Blvd., 2605 Harbor Blvd., 2607 Harbor Blvd., 2606 Harbor Blvd., 2608 Harbor Blvd., 2609 Harbor Blvd., 2611 Harbor Blvd., 2610 Harbor Blvd., 2612 Harbor Blvd., 2613 Harbor Blvd., 2615 Harbor Blvd., 2614 Harbor Blvd., 2616 Harbor Blvd., 1008 Stone St., 1019 Fourth St., 1222 Ashburn Dr., 1311 Wamajo Dr., 1317 Huntington Ave., 1323 Stone St., 1435 Judy Ln., 1502 Pierce St., 1612 Camp St., 1617 N Larchmont, 207 Center St., 412 E Adams St., 508 E Washington St., 514 E Washington St., 623 Taylor St., 905 Hayes Ave., 917 Hayes Ave., 1030 Pearl St., 1301 Prospect St., 132 Homestead Ave., 1434 Camp St., 211 Reese St., 405 Camp St., 408 E Washington St., 411 Neil St., 414 McKelvey St., 502 E Washington St., 504 E Washington St., 506 E Washington St., 526 W Washington St., 605 W Osbourne St., 610 Shelby St., 614 Osbourne St., 628 Taylor St., 1201 Wamajo St., 1227 W Madison St., Apt. A and B, 1801 Camp St. #1 and #2, 1612 Central Ave., 1827 Clinton St., 407 Reese St., 514 and 514 1/2 Dewey St., 622 Perry St., 908 Hancock St., 1509 W Monroe St., 1107 Wamajo Dr., and 1703 Fifth St.

The activities proposed comprise a project for which a Finding of No Significant Impact on the environment was published on October 31, 2020. An Environmental Review Record (ERR) that documents the environmental determinations for this project is on file at the Erie County Board of Commissioners office, 2900 Columbus Avenue, Sandusky, Ohio 44870 and Erie Metropolitan Housing Authority Office, 322 Warren Street, Sandusky, Ohio 44870 and may be examined or copied weekdays between 9:00 A.M. to 4:00 P.M. Monday through Friday.

PUBLIC COMMENTS

Any individual, group, or agency may submit written comments on the ERR to the ClevelandPublicHousing@hud.gov with "Erie Scattered General sites CFP and EPC Project ERR Objection" in the subject heading. All comments received by November 15, 2020 will be considered by the Erie County, Ohio Board of County Commissioners prior to authorizing submission of a request for release of funds.

ENVIRONMENTAL CERTIFICATION

The Erie County Board of Commissioners certifies to Cleveland HUD Public Housing Office that Patrick Shenigo in his capacity as Erie County Commissioner consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. Cleveland HUD Public Housing Office's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the Capital Funds and Operating Funds and Energy Performance Contract to use Program funds.

OBJECTIONS TO RELEASE OF FUNDS

Cleveland HUD Public Housing Office will accept objections to its release of fund and the Erie County Board of Commissioner's certification for a period of fifteen days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases: (a) the certification was not executed by the Certifying Officer of the Erie County Board of Commissioners; (b) the Erie County Board of Commissioners has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR part 58; (c) the grant recipient or other participants in the development process have committed funds, incurred costs or undertaken activities not authorized by 24 CFR Part 58 before approval of a release of funds by the Cleveland HUD Public Housing Office; or (d) another Federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted in accordance with the required procedures (24 CFR Part 58, Sec. 58.76) and shall be addressed to Cleveland HUD Public Housing office by email to ClevelandPublicHousing@hud.gov. Potential objectors should contact Cleveland HUD Public Housing Office to verify the actual last day of the objection period.

Patrick Shenigo, Erie County Commissioner
